DEPARTMENT OF NUCLEAR SAFETY NOTICE OF PROPOSED AMENDMENT

- Heading of the Part: Licensing Requirements for Land Disposal of Radioactive Waste $\widehat{}$
- 32 Ill. Adm. Code 601 Code Citation: 2)
- Section Number: 3)
- Proposed Action: Amendment
- <u>Statutory Authority:</u> Implementing and authorized by the Illinois Low-Level Radioactive Waste Management Act [420 ILCS 20]. 4
- The Department is proposing this amendment to eliminate out of date disposal site suitability requirements regarding local approval for the disposal of waste at the low-level radioactive waste disposal facility. A Complete Description of the Subjects and Issues Involved: This rulemaking will delete subsections (1) and (m) from Section 601.230. 2
- Will this proposed amendment replace an emergency rule currently in effect? 9
- Does this rulemaking contain an automatic repeal date? 7
- S Does this proposed amendment contain incorporations by reference? 8
- Are there any other proposed amendments pending on this Part? No 6
- <u>Statement of Statewide Policy Objectives:</u> The requirements imposed by the proposed rulemaking are not expected to require local governments to establish, expand, or modify their activities in such a way as to necessitate additional expenditures from local revenues. 10)
- proposed rulemaking: Comments on this proposed rulemaking may be submitted in writing for a period of 45 days following publication of this notice. The Department will consider fully all written comments on this proposed rulemaking submitted during the 45 day comment period. Time, Place and Manner in which interested persons may comment on this Comments should be submitted to: 11)

Amended at	
(Source:	

Section 606.30 Requirements for Design, Construction, Operation, Monitoring, and Maintenance of the Low-Level Radioactive Waste Disposal Facility Design and Construction of the Facility - Performance Objectives Section 606.30 a)

The disposal facility shall be designed and constructed, based on accepted engineering principles and practices, to further the following performance objectives:

- utilize the best available technology that is economically reasonable, technologically feasible, and environmentally sound for disposal of waste (Section 6 of The $\overline{\text{the}}$ Act). The design and construction of the disposal facility shall
- The design of the disposal facility must be compatible with the expected waste characteristics, methods of operation, and proposed methods of closure and stabilization and shall demonstrate that the requirements of 32 Ill. Adm. Code 601 will be met 2)
- The facility design shall allow closure in a manner that isolates the wastes and waste constituents and that requires only minor custodial care to assure long term performance. 3
- to The disposal facility shall be designed and constructed provide for the complete containment of waste and waste constituents. 4
- allow remedial action, if necessary. Achievement of this objective shall not be accomplished by compromising, or in any way lessening, the ability of the disposal facility to satisfy the performance objectives and requirements of this Part and of 32 Ill. Adm. Code 601. The disposal facility shall be designed and constructed to 2
- Disposal units shall be designed so that their engineered components will maintain their structural integrity and prevent release of waste and waste constituents. (9
- Design and Construction of the Facility Requirements (q
- The disposal facility design shall not incorporate the use of shallow land burial or underground injection wells and shall provide for the use of above-ground modules or other

earthquakes, and tornadoes, which are expected to occur for five hundred years.

- The disposal unit shall meet the following design requirements: (9
- monitored and that provide structural support, prevent Disposal modules shall be designed and constructed to incorporate multiple engineered safety features, such as, but not limited to, placing a cover over disposal modules, using backfill that adds structural strength the release of waste and waste constituents, and prevent inadvertent intrusion (See 32 Ill. Adm. Code manufactured materials that are independently to the module, and reinforcing modules with A
- facility in such a manner that the amount of waste on site that is not yet permanently disposed of, as well as the time that waste is held on site prior to The disposal unit shall be modular, incorporating design elements that will allow operation of the disposal, will be minimized; 8
- accommodate waste that cannot be packaged in standard Disposal modules must be designed and constructed to containers, e.g., reactor components, contaminated steel; 0
- engineering principles and practices, to ensure that the tensile stress in the manufactured materials never designed and constructed to ensure maintenance of the fail. Any support provided by structural reinforcement, such as steel or rebar, shall be taken into account only if the structural reinforcement is structural reinforcement's minimum required strength Disposal modules made of manufactured materials must exceeds the level that will cause the materials to for the entire design life of the disposal module; be designed and constructed, using accepted 0
- structural integrity regardless of the physical form Disposal modules must be designed to maintain their of the waste: E

NOTICE OF PROPOSED AMENDMENT

- F) Disposal modules shall be designed and constructed so that water cannot infiltrate and remain in contact with waste packages;
- G) Disposal modules must be constructed of materials that will not interact with each other, any surrounding earth, backfill, any cover material, or base grade material in such a manner as to compromise the ability of the materials to perform their intended function;
- H) If intruder barriers are required by 32 Ill. Adm. Code 601.250(b), disposal modules must be designed and constructed, using accepted engineering practices, with intruder barriers designed to last at least 500 years; and
- 1) Mixed waste shall be disposed of in modules that are designed, constructed, operated, closed, and monitored in compliance with both 32 Ill. Adm. Code 601 and 35 Ill. Adm. Code 601 and 35 Ill. Adm.

3

- Disposal module design shall allow characterization, modeling, analysis, and evaluation of the module's capability to contain waste.
- c) Operation and Maintenance Performance Objective

The low-level radioactive waste disposal facility shall be operated in a manner that reduces the risks associated with radiation to workers and the general public to levels that are as low as is reasonably achievable.

- d) Operation and Maintenance Requirements
- The facility shall be operated in compliance with following requirements applicable to licensees of the Department: 32 Ill. Adm. Code 200, 310, 320, 330, 340, 341, 400- and 601.
- Waste shall not be disposed of at the facility unless the waste complies with the applicable waste form standards. Any waste received that is not in compliance with these standards shall either be treated prior to disposal or returned to the generator or broker, provided the waste packages comply with the packaging requirements of 32 III. Adm. Code 341. Wastes may be treated at the disposal facility only if the operator is licensed to engage in

ILLINOIS REGISTER

DEPARTMENT OF NUCLEAR SAFETY NOTICE OF PROPOSED AMENDMENT

treatment activities. If the waste packages are not in compliance with the 32 Ill. Adm. Code 341, the operator shall either repackage the waste for return or treat the waste so that it is in a form which is acceptable for disposal. The generator or broker who shipped the waste to the disposal facility shall be liable for any expense incurred due to repackaging or processing unacceptable waste forms, or for expenses incurred in shipping the waste back to the generator if required.

AGENCY NOTE: Pursuant to Section 7 of the Illinois Low-Level Radioactive Waste Management Act {III. Rev. Stat. 1989, ch. 111½, par. 241.7} [420 ILCS 20/7], the Department will be promulgating rules setting forth waste form standards.

- Waste shall not be disposed at the facility unless the waste is accompanied by a proper manifest. In the event that waste is received at the facility without a proper manifest, the operator shall notify the Department and contact the shipper to obtain a proper manifest. In the event that a proper manifest cannot be obtained, the facility operator shall take such other action as the Department requires, such as, but not limited to, analyzing the contents of the unmanifested shipment and preparing a manifest reflecting the results, and with the approval of the Department, based on requirements contained in the license and the Department's rules, disposing of the waste, in accordance with the requirements imposed by the facility license, at the shipper's expense.
- 4) The facility shall be operated so that no person outside the facility boundary receives a radiation dose in excess of # milliyem 10 micro Sv (1 mrem) per year to the whole body as a result of the facility operations.
- 5) To the extent practicable, wastes shall be disposed of in containers of standard size and shape.
- 6) The facility shall be operated in a manner that reduces the amount of waste on site that has not yet been permanently disposed of and that minimizes the time the waste is held on site prior to disposal.

NOTICE OF PROPOSED AMENDMENT

- The facility operator shall provide personnel, equipment, and procedures for acquiring environmental samples and conducting on-site tests to detect any releases of radionuclides into the air, soil, water, and groundwater, as well as for monitoring radiation exposures to facility personned occupational dose in accordance with 32 Ill. Adm. Code 340.2020 340. Subpart F. In addition, the facility operator shall provide for environmental sampling and testing to detect releases of waste or waste constituents into the air, soil, and water which are either, listed as hazardous in Subpart D of 40 CFR 261, or cause the waste to exhibit any of the hazardous waste characteristics identified in Subpart C of 40 CFR 261 is incorporated as of July 1, 1999 1993, exclusive of subsequent amendments or editions. A copy of 40 CFR 261 is available for inspection at the Department of Nuclear Safety.
- Note that the facility operator shall not accept waste at the facility until the waste shipment has been inspected and approved by the Department, as required by Section 9(e) of The the Act. The operator shall provide office space, not smaller than 20 feet by 20 feet, in a building located near the gate where waste is received, to be used by the resident inspector from the Department. The operator will maintain the building and supply electricity, heat, air conditioning, water, and restroom facilities.
- 9) The facility operator shall maintain a direct data link with the Department's offices in Springfield and shall transmit to the Department facility records regarding the receipt, handling_∓ and disposition of low-level radioactive waste as required by this Part.
- The facility operator shall maintain a public documents room.
- The facility operator shall maintain a public information center in the community where the facility is located.
- 12) The facility operator shall make all records of facility operations available upon request of the Department pursuant to its authority under Section 8 of The the Act and Section 27 of the Radiation Protection Act of 1990 (P.A. 86 1341, effective September 7, 1990 420 ILCS 40/27) and shall provide access to every part of the facility to representatives of the Department.

NOTICE OF PROPOSED AMENDMENT

Facility Monitoring - Performance Objective

(e)

- The low-level radioactive waste disposal facility shall include a monitoring system, which, based on accepted engineering principles and practices, is capable of determining compliance with this Part and 32 Ill. Adm. Code 601.
- Facility Monitoring Requirements

(

- The disposal facility shall include a monitoring system for detecting releases of radioactive or hazardous material within the disposal modules during facility operations.
- The disposal facility shall include a monitoring system for detecting releases of radioactive or hazardous materials from the disposal unit.
- The disposal facility shall include a monitoring system capable of detecting releases of radioactive or hazardous materials from the facility.
- The disposal facility shall include a monitoring system capable of detecting releases into the air, soil, surface water and groundwater.
- g) Maintenance
- The facility operator shall conduct a program of in-situ testing of the design and construction of disposal modules. The in-situ testing program shall continue during the period of operation, and closure. The program shall be designed to provide additional information regarding the expected long term performance of the facility, to identify any deficiencies or defects in design and construction of disposal units, and to form the basis for recommending changes on design, construction, and operation of the facility that would increase the safety or efficiency of waste disposal.
- The facility operator shall, at all times, maintain the facility structures and equipment to promote occupational safety and worker protection, and to assure uninterrupted operation of the facility.

DEPARTMENT OF NUCLEAR SAFETY

NOTICE OF PROPOSED AMENDMENT

Section 606.90 Emergency Closure

- Upon finding that immediate closure of the facility is necessary to avoid an imminent threat to the public health or safety, or the emergency closure order to the facility operator. An emergency closure order may be issued by the Director in the event of environment, the Director of the Department shall issue an a)
- material beyond the site boundary in excess of any applicable limit imposed by 32 Ill. Adm. Code 340, or a radiation exposure occupational dose in excess of the performance standards imposed by 32 Ill. Adm. Code 601 and A finding of non-compliance with any applicable regulation of the Department, if such non-compliance is determined by the Director to pose a risk of a release of radioactive _
- A finding that continued operation of the facility represents a significant and immediate threat to the public code, rule, regulation or order promulgated under these acts, and that requires immediate action to protect the public welfare (Section 12 $\overline{38}$ of the Radiation Protection Act of 1990, 111. Rev. Stat. 1987, ch. 111½, par. 222 $\overline{420}$ ILCS $\overline{40}$, and Section 8 of The $\overline{\text{the}}$ Act). Illinois Low-Level Radioactive Waste Management Act or any health or safety, as evidenced by a violation of any provisions of the Radiation Protection Act <u>of 1990</u> or 2)
- Upon receipt of a written order requiring immediate closure, the facility operator shall immediately take the following actions: (q
- Implement the contingency plan required by Section 606.70 of this Part: 1
- Notify all persons holding a site use permit or similar evidence of permission to use the facility; and 5
- Notify the Central Midwest Interstate Low-Level Radioactive Waste Commission. 3)

10) Statement of Statewide Policy Objectives:

These proposed amendments do not create or enlarge a state mandate as defined in Section 3 (b) of the State Mandates Act [30 ILCS 805/3 (1992)].

11) Time, Place, and Manner in which interested persons may comment on this proposed rulemaking:

Send written comments concerning R94-16 within 45 days of publication in the Illinois Register to:

Dorothy Gunn Clerk of the Pollution Control Board 100 West Randolph Street Suite 11-500 Chicago, IL 60601

and

Kyle Nash Davis
Assistant Counsel
Illinois Environmental Protection Agency
Bureau of Air
P.O. Box 19276
Springfield, IL 62794-9276

All comments should be clearly marked with the docket number R94-16. Questions may be directed to Diane O'Neill at the Pollution Control Board at (312)814-6062 or Kyle Nash Davis, Illinois Environmental Protection Agency at (217) 524-3333.

Public hearings are scheduled for August 4, 1994, at 10:30 a.m., James R. Thompson Center, 100 W. Randolph, Room 9-040, Chicago, Illinois and if necessary on September 2, and September 16, 1994 at the same time and location. Contact Diane O'Neill, hearing officer at (312) 814-6062 if interested in the hearings.

NOTICE OF PROPOSED AMENDMENTS

Section 211.3695 Maximum True Vapor Pressure

"Maximum true vapor pressure" means the equilibrium partial pressure exerted by stored VOL at the temperature equal to the highest calendar-month average of the VOL storage temperature for VOLS stored above or below the ambient temperature or at the local maximum monthly average temperature as reported by the National Weather Service for VOLS stored at the ambient temperature, as determined:

- a) In accordance with methods described in American
 Petroleum Institute Bulletin 2517, Evaporation Loss
 from External Floating Roof Tanks, incorporated by
 reference at 35 Ill. Adm. Code 218.112 and 219.112; or
- b) By ASTM Method D2879-83, incorporated by reference at 35 Ill. Adm. Code 218.112(a)(1) and 219.112(a)(1).

(Source: Added at ______, effective ______,

Section 211.4130 Opacity

"Opacity" means

Example 212, a condition which renders material partially or wholly impervious to transmittance of light and causes obstruction of an observer's view. For the purposes of these regulations, the following equivalence between opacity and Ringelmann shall be employed:

Opacity Percent Ringelmann

	J.		2.	3°	4.	5,	
10	20	30	40	9	80	100	

That fraction of light, expressed in percent, which when transmitted from a source through a smoke-obscured path, is prevented from reaching the observer of instrument receiver.

- A Complete Description of the Subjects and Issues Involved:

This rulemaking proposes amendments to two Subparts of 35 Ill. Adm. Code 218 pursuant to the Rate of Progress Plan submitted to USEPA November 15, 1993, as required by the Clean Air Act as amended in 1990. This rulemaking will affect those businesses that engage instorage of volatile organic liquid or that have airoxidation processes. The amendments to Subpart B, Organic Emissions from Loading and Storage Operations, reflect proposed federal quidance in this industrial category. The changes to Subpart V, Air Oxidation Processes, propose more stringent control standards for this industrial process.

- 6) Will this proposed rule(s) replace an emergency rule currently in effect?

 Yes X No
- 7) Does this rulemaking contain an automatic repeal date?

 Yes X No
- 8) Does this proposed amendment contain incorporations by reference?

 X Yes No

Section 218.127 Testing VOL Operations

The owner or operator of each storage vessel specified in Section 218.119 of this Subpart shall comply with the requirements of subsection (a), (b), or (c) below. The applicable subsection for a particular storage vessel depends on the control equipment installed to meet the requirements of this Subpart.

- 4) After installing the control equipment necessary for the source to comply with the requirements of Section 218.120(a)(1) or (2) of this Subpart (permanently affixed roof and internal floating roof), each owner or operator shall:
- Visually inspect the internal floating roof, the primary seal, and the secondary seal (if one is in service) prior to filling the storage vessel with Vol. If there are holes, tears, or other openings in the primary seal, the secondary seal, or the seal fabric or defects in the internal floating roof, or both, the owner or operator shall repair the items before filling the storage vessel.
- mechanical shoe primary seal, visually inspect the internal floating roof and the primary seal or the within 45 days and if the vessel cannot be emptied manholes and roof hatches on the fixed roof at least once every 12 months after initial fill. If within 45 days, the owner or operator may request an extension must document that alternate storage there is liquid accumulated on the roof, or if 218.129(a)(3) of this Subpart. Such a request for the internal floating roof is not resting on the surface of the VOL inside the storage vessel, or tears in the seal fabric, the owner or operator storage vessel from service within 45 days. If failure that is detected during inspections shall repair the items or empty and remove the required in this subsection cannot be repaired the seal is detached, or if there are holes or For vessels equipped with a liquid-mounted or secondary seal (if one is in service) through 30-day extension from the Agency in the inspection report required in Section 7

NOTICE OF PROPOSED AMENDMENTS

Section 218.129

Recordkeeping and Reporting for VOL Operations

The owner or operator of each storage vessel specified in Section 218.120(a) of this Subpart shall maintain records and furnish reports as required by subsection (a), (b), or (c) below as appropriate for the control equipment installed to meet the requirements of Section 218.120. The owner or operator shall keep copies of all reports and records required by this Section. except for the records required by subsection (c)(1) below, for at least 3 years. The records required by subsection (c)(1) below, shall be kept for the life of the control equipment.

- a) After installing control equipment in accordance with Section 218.120(a)(1) or (2) of this Subpart (fixed roof and internal floating roof), the owner or operator shall:
- I) Furnish the Agency with a report that describes the control equipment and certifies that the control equipment meets the specifications of Sections 218.120(a)(1) and 218.127(a)(1) of this Subpart;
- Z) Keep a record of each inspection performed as required by Sections 218.127(a)(1), (a)(2).

 (a)(3), and (a)(4) of this Subpart. Each record shall identify the storage vessel on which the inspection was performed and shall contain the date the vessel was inspected and the observed condition of each component of the control equipment (seals, internal floating roof, and fittings);
- 13) If any of the conditions described in Section 218.127(a)(2) of this Subpart are detected during the annual visual inspection required by Section 218.127(a)(2), report to the Agency Within 30 days of the inspection. The identity of the storage vessel, the nature of the defects, and the date the storage vessel was emptied or the nature of and date the repair was made; and
- 4) After each inspection required by Section 218.127(a)(3) of this Subpart where holes or tears in the seal or seal fabric, or defects in the

The rulemaking represents changes to two Subparts identified in Illinois November 15, 1993, submittal of the States' Rate of Progress Plan. Pursuant to this plan, Illinois obligated itself to adopt measures to reduce Volatile Organic Material emission levels by at least 15% of the 1990 base in the State's nonattainment areas. (\underline{See} : 42 U.S.C. 7511 (b) (1) (1990)). This rulemaking will affect those business that emissions from loading and storage operations, represent an effort to adopt federal guidance which Illinois has chosen to implement. The changes to Subpart V_i air oxidation processes, engage in storage of volatile organic liquid or that have air reflect Illinois' attempt to tighten an existing rule. The changes to Subpart B, oxidation processes.

62794-9276

Springfield, IL

R94-16. Questions may be directed to Diane O'Neill at the Pollution Control Board at (312)814-6062 or Kyle Nash Davis, All comments should be clearly marked with the docket number Illinois Environmental Protection Agency at (217) 524-3333. Public hearings are scheduled for August 4, 1994, at 10:30 a.m., James R. Thompson Center, 100 W. Randolph, Room 9-040, Chicago, Illinois and if necessary on September 2, and September 16, 1994 at the same time and location. Contact Diane O'Neill, hearing officer at (312) 814-6062 if interested in the hearings.

Initial Regulatory Flexibility Analysis: 12)

No small businesses will be affected to a greater extent than allowed by current statutes and regulations. Consequently, a Regulatory Flexibility Analysis is not applicable.

- Date rule was submitted to the Business Assistance Office of the Department of Commerce and Community Affairs: June 27, 1994 A
- Types of small businesses affected: Those that engage in storage of volatile organic liquid or that have air oxidation processes. â
- compliance: Recordkeeping to the extent necessary to demonstrate that a source is either not subject to the requirements of the proposed amendments or to demonstrate that the source is meeting the requirements of the proposal. The recordkeeping and reporting requirements for Subpart V are the same as previously required; they Reporting, bookkeeping or other procedures required for have not been amended. ΰ
- Types of professional skills necessary for compliance: Technical, perhaps engineering and clerical. 6

The full text of the Proposed Rule begins on the next page:

ORGANIC EMISSIONS FROM STORAGE AND LOADING OPERATIONS SUBPART B:

Applicability for VOL Section 219,119

The limitations of Section 219.120 of this Subpart shall apply to maximum true vapor pressure of 0.75 psia or greater but less than 11.1 psia in any stationary tank, reservoir, or other container all storage containers of volatile organic liquid (VOL) with a of more than 151 cubic meters (40,000 gal) capacity, except to vessels as provided below:

- Vessels with a capacity greater than or equal to 40,000 gallons storing a liquid with a maximum true pressure of less than 0.5 psia; a
- Vessels of coke oven by-product plants; ব
- Pressure vessels designed to operate in excess of 29.4 psia and without emissions to the atmosphere; 0
- Vessels permanently attached to mobile vehicles such as trucks, rail cars, barges, or ships; ਰ
- Vessels storing petroleum liquids; or a

effective Ill. Reg. a Added (Source:

Control Requirements for Storage Containers of VOL Section 219,120

Every owner or operator subject to the requirements of this Subpart shall reduce VOM emissions from storage tanks, reservoirs, or other containers as follows:

following specifications or that is equipped with a vapor Each fixed roof tank shall be equipped with an control system that meets the specifications internal floating roof that meets the contained in subsection (a)(4) below: 7

a

- When the roof is resting on the leg supports, completely emptied and subsequently refilled floating on the liguid surface at all times, fill and during those The internal floating roof shall be the process of filling, emptying, or refilling shall be continuous and shall be The internal floating roof shall rest or inside a storage vessel that has a fixed necessarily in complete contact with it) float on the liquid surface (but not intervals when the storage vessel is accomplished as rapidly as possible. except during initial roof. A
- Each internal floating roof shall be equipped with one of the following closure devices between the wall of the storage vessel and the edge of the internal floating roof: B
- A foam- or liquid-filled seal mounted in contact with the liquid between the wall liquid-mounted foam - or liquid-filled seal mounted in of the storage vessel and the floating contact with the liquid (liquid-mounteseal). A liquid-mounted seal means a roof continuously around the circumference of the tank; 4
- that each forms a continuous closure that completely covers the space between Two seals mounted one above the other so ii

NOTICE OF PROPOSED AMENDMENTS

the wall of the storage vessel and the edge of the internal floating roof. The lower seal may be vapor-mounted, but both must be continuous; or

- sheet held vertically against the wall sheet held vertically against the wall of the storage vessel by springs or weighted levers and is connected by braces to the floating roof. A flexible coated fabric (envelope) spans the annular space between the metal sheet and the floating roof.
- Each opening in a noncontact internal floating roof except for automatic bleeder vents (vacuum breaker vents) and the rim space vents is to provide a projection below the liquid surface.

10

- Each opening in the internal floating roof except for leg sleeves, automatic bleeder vents, rim space vents, column wells, ladder wells, sample wells, and stub drains is to be equipped with a cover or lid which is to be maintained in a closed position at all times (i.e., no visible gap) except when the device is in actual use. The cover or lid shall be equipped with a gasket. Covers on each access hatch and automatic gauge float well shall be bolted except when they are in use.
- Automatic bleeder vents shall be equipped with a gasket and are to be closed at all times when the roof is floating except when the roof is being floated off or is being landed on the roof leg supports.
- E) Rim space vents shall be equipped with a gasket and are to be set to open only when the internal floating roof is not floating or at the manufacturer's recommended setting.
- Each penetration of the internal floating roof for the purpose of sampling shall be a sample well. The sample well shall have a slit fabric cover that covers at least 90 percent of the opening.

ILLINOIS REGISTER

POLLUTION CONTROL BOARD

NOTICE OF PROPOSED AMENDMENTS

- H) Each penetration of the internal floating roof that allows for passage of a ladder shall have a gasketed sliding cover.
- During the next scheduled tank cleaning or before March 15, 2004, whichever comes first, each internal floating roof tank shall meet the specifications set forth in subsection (a)(1)(A) through (H) above.
- Each external floating roof tank shall meet the following specifications:
- A) Each external floating roof shall be equipped with a closure device between the wall of the storage vessel and the roof edge. The closure device is to consist of two seals, one above the other. The lower seal is referred to as the primary seal, and the upper seal is referred to as the secondary seal.
- i) Except as provided in Section 219.127(b)(4) of this Subpart, the primary seal shall completely cover the annular space between the edge of the floating roof and tank wall and shall be either a liquid mounted seal or a shoe seal.
- ii) The secondary seal shall completely cover the annular space between the external floating roof and the wall of the storage vessel in a continuous fashion except as allowed in Section 219.127(b)(4) of this Subpart.
- iii) The tank shall be equipped with the closure device after the next scheduled tank cleaning, but no later than March 15, 2004.
- Except for automatic bleeder vents and rim space vents, each opening in a noncontact external floating roof shall provide a projection below the liquid surface. Except for automatic bleeder vents, rim space vents, roof drains, and leg sleeves, each opening in the roof is to be equipped with a gasketed cover, seal, or lid that is to be maintained

NOTICE OF PROPOSED AMENDMENTS

are to be gasketed. Each emergency roof drain visible gap) except when the device is in actual use. Automatic bleeder vents are to be closed at all times when the roof is floating is being landed on the roof leg supports. Rim vents are to be set to open when the roof is being floated off the roof leg supports or at is to be provided with a slotted membrane fabric cover that covers at least 90 percent except when the roof is being floated off or in a closed position at all times (i.e., no Automatic bleeder vents and rim space vents the manufacturer's recommended setting. of the area of the opening.

- filling, emptying, or refilling when the roof The roof shall be floating on the liquid at all times (i.e., off the roof leg supports) except when the tank is completely emptied and subsequently refilled. The process of is resting on the leg supports shall be continuous and shall be accomplished as rapidly as possible. d
- A closed vent system and control device shall meet the following specifications: 4
- instrument reading of less than 500 ppm above determined by the methods specified in 40 CFR from the storage vessel and operated with no The closed vent system shall be designed to collect all VOM vapors and gases discharged detectable emissions as indicated by an 60.485(c), incorporated by reference at background and visual inspections, as Section 219.112(d) of this Part. A
- percent or greater. If a flare is used as the control device requirements of 40 CFR 60.18, operated to reduce inlet VOM emissions by 95 The control device shall be designed and specifications described in the general incorporated by reference at Section control device, it shall meet the 219.112(d) of this Part. B
- An alternative emission control plan equivalent to the requirements of subsection (a)(1), (a)(2), (a)(4) above that has been approved by 3

Section 219.125 Compliance Dates

Every owner or operator of a VOL or VPL storage vessel subject to the requirements of this Subpart shall comply with the requirements of this Subpart in accordance with the compliance schedule specified in the applicable subsection below:

- Every owner or operator of a VPL storage vessel of the type included in Sections 219.121, 219.123 and 219.124 of this Subpart shall have complied with the requirements of Sections 219.121, 219.123 and 219.124 by the date set forth in Section 219.106(a) or (b) of this Part.
- Every owner or operator of a VOL storage vessel of the type identified in Section 219.119 of this Subpart shall comply with the requirements of Section 219.120 of this Subpart as follows:
- 1) For fixed roof tanks (Section 219.120(a)(1) of this Subpart), by March 15, 1996.
- 2) For internal floating roof tanks (Section 219.120(a)(2) of this Subpart), either during the next scheduled tank cleaning or by March 15, 2004, whichever comes first;
- 2) For external floating roof tanks (Section 219.120(a)(a) of this Subpart), either during the next scheduled tank cleaning or by March 15, 2004, whichever comes first; and.

Section 219.127 Testing VOL Operations

The owner or operator of each storage vessel specified in Section 219.119 of this Subpart shall comply with the requirements of subsection (a), (b), or (c) below. The applicable subsection for a particular storage vessel depends on the control equipment installed to meet the requirements of this Subpart.

- the source to comply with the requirements of Section 219.120(a)(1) or (2) of this Subpart (permanently affixed roof and internal floating roof), each owner or operator shall:
- Visually inspect the internal floating roof, the primary seal, and the secondary seal (if one is in service) prior to filling the storage vessel with VOL. If there are holes, tears, or other openings in the primary seal, the secondary seal, or the seal fabric or defects in the internal floating roof, or both, the owner or operator shall repair the items before filling the storage vessel.
- mechanical shoe primary seal, visually inspect the internal floating roof and the primary seal or the secondary seal (if one is in service) through within 45 days and if the vessel cannot be emptied within 45 days, the owner or operator may request least once every 12 months after initial fill. If if there is liquid accumulated on the roof, or if the internal floating roof is not resting on the tears in the seal fabric, the owner or operator storage vessel from service within 45 days. If manholes and roof hatches on the fixed roof at the seal is detached, or if there are holes or shall repair the items or empty and remove the required in this subsection cannot be repaired For vessels equipped with a liquid-mounted or surface of the VOL inside the storage vessel, failure that is detected during inspections a 30-day extension from the Agency in the inspection report required in Section 2

POLLUTION CONTROL BOARD

NOTICE OF PROPOSED AMENDMENTS

an extension must document that alternate storage capacity is unavailable and specify a schedule of actions the owner or operator will take that will assure that the control equipment will be repaired or the vessel will be emptied within 30 days.

- For vessels equipped with both primary and secondary seals
- A) Visually inspect the vessel as specified in subsection (a) (4) below at least every 5 years; or
- B) Visually inspect the vessel as specified in subsection (a)(2) above.
- seal fabric or the gaskets no longer close off the area, the owner or operator shall repair the items as necessary so that none of the conditions specified in this subsection exist before refilling the storage vessel with VOL. In no event years in the case of vessels conducting the annual visual inspection as specified in subsections this provision occur at intervals greater than 10 service), gaskets, slotted membranes, and sleeve Visually inspect the internal floating roof, the tears, or other openings in the seal, or if the tears, or other openings in the seal, or if the seals (if any) each time the storage vessel is emptied and degassed. If the internal floating roof has defects, the primary seal has holes. primary seal, the secondary seal (if one is in iquid surfaces from the atmosphere, or if the slotted membrane has more than 10 percent open shall inspections conducted in accordance with (a)(2) and (a)(3)(B) above and at intervals no seal fabric or the secondary seal has holes, greater than 5 years in the case of vessels specified in subsection (a)(3)(A) above. 4
- Divily the Agency in writing at least 30 days prior to the filling or refilling of each storage vessel for which an inspection is required by subsections (a)(1) and (a)(4) above to afford the Agency the opportunity to have an observer present. If the inspection required by subsection (a)(4) above is not planned and the owner or operator could not have known about the inspection

ILLINOIS REGISTER

POLLUTION CONTROL BOARD

NOTICE OF PROPOSED AMENDMENTS

30 days in advance of refilling the tank, the owner or operator shall notify the Agency at least 7 days prior to the refilling of the storage vessel. Notification shall be made by telephone immediately followed by written documentation demonstrating why the inspection was unplanned. Alternatively, this notification including the written documentation may be made in writing and sent by express mail so that it is received by the Agency at least 7 days prior to the refilling.

- b) The owner or operator of external floating roof tanks shall:
- 1) Determine the gap areas and maximum gap widths between the primary seal and the wall of the storage vessel and between the secondary seal and the wall of the storage vessel.
- A) Measurements of gaps between the tank wall and the primary seal (seal gaps) shall be performed during the hydrostatic testing of the vessel or within 60 days of the initial fill with VOL and at least once every 5 years thereafter.
- Measurements of gaps between the tank wall and the secondary seal shall be performed within 60 days of the initial fill with VOL and at least once per year thereafter.
- Lf any source ceases to store VOL for a period of 1 year or more, subsequent introduction of VOL into the vessel shall be considered an initial fill for the purposes of subsections (b)(1)(A) and (b)(1)(B) above.
- 2) Determine gap widths and areas in the primary and secondary seals individually according to the following procedures:
- A) Measure seal gaps, if any, at one or more floating roof levels when the roof is floating off the roof leg supports;
- Measure seal gaps around the entire circumference of the tank in each place where a 1/8 inch in diameter uniform probe passes freely (without forcing or binding against

NOTICE OF PROPOSED AMENDMENTS

seal) between the seal and the wall of the circumferential distance of each such storage vessel and measure the location; and

- Determine the total surface area of each gap accurately the actual distance from the tank wall to the seal and multiplying each such width by its respective circumferential described in subsection (b)(2)(B) above by using probes of various widths to measure distance. 히
- Add the gap surface area of each gap location for individually and divide the sum for each by the ratio to the respective standards in subsection nominal diameter of the tank and compare each the primary seal and the secondary seal (b) (4) below. 3
- within 45 days of identification in any inspection Make necessary repairs or empty the storage vessel for seals not meeting the requirements listed in subsections (b) (4) (A) and (B) below: 4
- in. There are to be no holes, tears, or other The accumulated area of gaps between the tank mounted primary seal shall not exceed 10 in. per foot of tank diameter, and the width of any portion of any gap shall not exceed 1.5 openings in the shoe, seal fabric, or seal wall and the mechanical shoe or liquidenvelope. A
- The secondary seal is to meet the following requirements: B
- completely covers the space between the provided in subsection (b)(2)(C) above. roof edge and the tank wall except as The secondary seal is to be installed above the primary seal so that 1)
- The accumulated area of gaps between the tank wall and the secondary seal used in diameter, and the width of any portion liquid-mounted primary seal shall not exceed 1.0 in. per foot of tank combination with a metallic shoe or 11

Section 219,129 Recordkeeping and Reporting for VOL Operations

The owner or operator of each storage vessel specified in Section 219.120(a) of this Subpart shall maintain records and furnish reports as required by subsection (a), (b), or (c) below as appropriate for the control equipment installed to meet the requirements of Section 219.120. The owner or operator shall keep copies of all reports and records required by this Section, except for the records required by subsection (c)(1) below, for at least 3 years. The records required by subsection (c)(1) below shall be kept for the life of the control equipment.

- a). After installing control equipment in accordance with Section 219.120(a)(1) or (2) of this Subpart (fixed roof and internal floating roof), the owner or operator shall:
- Furnish the Agency with a report that describes the control equipment and certifies that the control equipment meets the specifications of Sections 219.120(a)(1) and 219.127(a)(1) of this Subpart;
- Keep a record of each inspection performed as required by Sections 219.127(a)(1), (a)(2).

 (a)(3), and (a)(4) of this Subpart. Each record shall identify the storage vessel on which the inspection was performed and shall contain the date the vessel was inspected and the observed condition of each component of the control equipment (seals, internal floating roof, and fittings);
- 219.127(a)(2) of this Subpart are detected during the annual visual inspection required by Section 219.127(a)(2), report to the Agency within 30 days of the inspection. The identity of the storage vessel, the nature of the defects, and the date the storage was emptied or the nature of and date the repair was made; and

DEPARTMENT OF PROFESSIONAL REGULATION

NOTICE OF PROPOSED AMENDMENT(S)

- Heading of the Part: The Professional Engineering Practice Act of 1989 1
- Code Citation: 68 Ill. Adm. Code 1380 5

3)	Section Numbers:	Proposed Action:
	1380.210	Amendment
	1380.240	Amendment
	1380.250	Amendment
	1380.260	Amendment
	1380.APPENDIX A	Amendment

- Statutory Authority: The Professional Engineering Practice Act of 1989 [225 ILCS 325]. 4
- A Complete Description of the Subjects and Issues Involved: 2

This rulemaking amends content pertaining to the examination for professional engineers, approved engineering programs and application requirements. The Department administers the examination provided by the National Council of Examiners for Engineering and Surveying (NCEES). NCEES has changed the scoring of the examination to pass/fail. Previously, a score of 70 or better was required.

Rescoring of the examination or any individual problem is not permitted; however, a retabulation of the numerical score will be permitted. If an applicant has failed an These proposed amendments also establish that a candidate who fails an examination may not review his/her examination booklet or the associated answer sheets. examination, the examination may not be waived for licensure.

engineering waived if the application was made before January 1, 1994. Since that Section 12(c) of the Act lists circumstances under which an individual applying for licensure as a professional engineer can have the examination for the fundamentals of deadline has expired, waiver information was removed from the application Section of the rules and placed in Appendix A with other historical material to be used when considering future applications for licensure by endorsement.

to file applications with the Department by November 15 for the spring examination and by May 15 for the fall examination. Currently the filing deadlines are December 15 and June 15. The dates are being moved up because NCEES has moved up the Professional engineer and engineer intern applicants for examination will be required dates by which the examinations must be ordered.

DEPARTMENT OF PROFESSIONAL REGULATION

NOTICE OF PROPOSED AMENDMENT(S)

In the Section pertaining to approved engineering programs, the rules provide that all engineering programs accredited by or determined equivalent by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology (ABET) are approved in this State.

Engineering programs determined equivalent by the Engineering Accreditation Commission of ABET include, but are not limited to, those accredited by the Canadian Engineering Accreditation Board of the Canadian Council of Professional Engineers; the Engineering Council (United Kingdom with certain Chartered Engineering Institutions); the Institution of Engineers of Ireland; the Institution of Engineers, Australia; and the Institution of Professional Engineers, New Zealand.

Other proposed changes involve style and form.

- Will these proposed amendments replace an emergency Rule currently in effect? No 9
- Does this rulemaking contain an automatic repeal date? No 2
- Do these proposed amendments contain incorporations by reference? No 8
- Are there any other proposed amendments pending on this Part? No 6
- Statement of Statewide Policy Objectives (if applicable): 10)

This rulemaking has no impact on local government.

Time, Place and Manner in which interested persons may comment on this proposed rulemaking: 11)

Interested persons may submit written comments and views to:

Department of Professional Regulation 217/785-0800 Fax #: 217/782-7645 320 West Washington, 3rd Floor Attention: Jean A. Courtney Springfield, IL 62786

All comments received within 30 days of this issue of the Illinois Register will be within 14 days of this issue will be considered if received within 30 days of such considered. The comments of interested persons who submit a request to comment

NOTICE OF PROPOSED AMENDMENT(S)

12) Initial Regulatory Flexibility Analysis:

- A) Types of small businesses, small municipalities and not for profit corporations affected: Those employing professional engineers.
- B) Reporting, bookkeeping or other procedures required for compliance:

Applicants for licensure by examination will need to file their applications a month earlier than in the past.

Section

C) Types of professional skills necessary for compliance:

Professional engineering skills are necessary for licensure.

Section 1380.210 Approved Engineering Program

- a) The Department of Professional Regulation shall, upon the recommendation of the State Board of Professional Engineers (the "Board"), approve an engineering program as reputable and in good standing if it meets the following minimum criteria:
- The educational institution is legally recognized and authorized by the jurisdiction in which it is located to confer a baccalaureate degree in engineering.

2) Faculty-

- A) Has a The faculty which is comprised of shall have a sufficient number of full-time, or full-time equivalent, instructors to make certain that the educational obligations to the student are fulfilled. A program at the basic level shall have no fewer than there 3 full-time faculty members whose primary commitment is to that program. If an institution relies on part-time faculty members, it shall demonstrate that, in addition to the commitment of at least 3 full-time equivalent faculty members, effective mechanisms are in place to provide adequate levels of student advising and faculty interaction, and faculty control over the curriculum.
- B) The faculty shall have demonstrated competence in their area of teaching as evidenced by appropriate degrees from professional colleges or institutions. Other evidence of faculty capability includes non-academic engineering experience, experience in teaching, ability to communicate effectively, participation in professional, scientific and other learned societies, licensure as a professional engineer and an interest in students' curricular activities.
- C) Teaching loads shall allow time for research and professional development activities. Stimulation of students' minds requires faculty involvement in scientific and technological development and in instructional innovation.

3) Curriculum:

ILLINOIS REGISTER

DEPARTMENT OF PROFESSIONAL REGULATION

NOTICE OF PROPOSED AMENDMENT(S)

- A) Has-a The curriculum of shall include at least 4 academic years leading to the awarding of the baccalaureate degree which provides while providing integration of the educational experience with the ability to apply the knowledge gained to the identification and solution of practical problems.
- B) The overall curriculum shall include a minimum of 120 semester hours or their equivalent (e.g., 180 quarter hours) and shall include at least the following subjects:

Mathematics (beyond trigonometry) - 15 hours. Basic Sciences (Physics/Chemistry) -15 hours. Engineering Sciences - 30 hours. Engineering Design - 15 hours. Humanities/Social Sciences - 15 hours.

- C) Mathematics shall be beyond trigonometry, and include differential and integral calculus, and differential equations at the baccalaureate level. Mathematics shall also include, but shall not be limited to, the study of probability, statistics, numerical analysis, and advanced calculus. Courses in computer usage and/or programming shall not be used to satisfy the mathematics requirement.
- D) Basic sciences shall include basic physics and chemistry, and may also include life sciences, earth sciences, and/or advanced physics and chemistry, as appropriate to the engineering discipline being studied.
- Engineering sciences have their roots in mathematics and basic sciences, but carry the knowledge toward creative application. Such subjects include, but are not limited to, mechanics, thermodynamics, electric and electronic circuits, material science, and other subjects depending upon the engineering discipline.
- Engineering design involves the conversion of resources to predetermined objectives. Course requirements shall include the establishment of objectives and criteria, synthesis, analysis, construction, testing and evaluation which develop student creativity through open-ended problems and consideration of alternative solutions. The inclusion of realistic constraints, such as economic factors, safety, aesthetics, ethics, and social impact is appropriate. Examples of subjects

NOTICE OF PROPOSED AMENDMENT(S)

in these areas include design of circuits, machines, power networks, process equipment and systems, and water treatment.

- Humanities and social sciences are, respectively, the branches of knowledge that concern man and his culture, and that concern than a student's native language). Non-traditional courses might include individual relationships in and to society. Examples of subjects in these areas are philosophy, history, literature, fine arts, religion, sociology, psychology, political science, economics, and foreign languages (other social responsibility and professional ethics. Subjects such as accounting and management may be acceptable engineering electives, but do not satisfy the objectives of this area. G
- Laboratory experience is essential to an engineering education at both theoretical and practical levels. $\widehat{\Xi}$
- student. The program shall include technical computations, problem data acquisition and usage, process control, and have access to computational facilities in order to integrate these techniques into the Computer-based experience shall be included in the program of each The student shall computer-assisted design. program.
- The program shall require that the student demonstrate competency in both written and oral communication.
- An understanding of ethical, social, economic, and safety considerations shall be included in the engineering program. \square
- For those institutions that elect to prepare a student to enter the profession at the advanced level, the curriculum shall satisfy the criteria set forth in this Section at the basic level, and shall include at least one year of additional study. That year shall include at least 2/3 of a year of advanced mathematics, basic sciences, engineering sciences, and engineering design. Of this component, at least 1/3 of a year shall be devoted to engineering design. The program shall be designed toward a meaningful individual course of study, and include thesis, research, and/or special projects.

Application for Enrollment as an Engineer Intern by Examination Section 1380.240

forms supplied by the Department by November 15 December 15 for the spring examination or by May 15 June 15 for the fall examination. The An applicant for enrollment as an Engineer Intern shall file an application on application shall include: a)

NOTICE OF PROPOSED AMENDMENT(S)

Either:

A) Completed college certification form showing receipt of a baccalaureate degree from an approved engineering program as set forth in Section 1380.210 of this Part; or

6

- Completed college certification form showing receipt of a baccalaureate degree in basic engineering or related science evidenced by an official transcript of educational credit, and verification of at least 4 years of experience on form(s), completed by the supervisor. An applicant shall have acquired the experience required by this Section PRIOR TO applying to the Department;
- The required fee specified in Section 20 of the Act;
- 3) For an applicant claiming credit for participation in a cooperative program, as described in Section 1380.230(a)(3), certification of such participation with a brief description of the program, from the university;
- 4) A complete work history indicating all employment since receipt of a baccalaureate degree. Such work history shall also include any experience earned PRIOR TO receipt of a baccalaureate degree pursuant to Section 8(b)(2) of the Act.

<u>P</u>

- An applicant in an approved engineering program shall be eligible to be seated for the first available Fundamentals of Engineering examination during the 12 twelve months prior to graduation if the applicant provides a certification stating that he is expected to graduate by the end of that 12 twelve-month period. The applicant shall be allowed to retake the examination during that 12 twelve-month period if he fails on the first attempt. However an applicant who passes the Fundamentals of Engineering examination prior to graduation will not be enrolled as an Engineer Internuntil the Department has received certification of graduation, as required by subsection (a)(1)(A), above. If certification of graduation is not received within one year after the first examination is taken, the results of the examination(s) will be void and the examination will have to be retaken.
- c) Upon receipt of the application and all supporting documentation in complete

DEPARTMENT OF PUBLIC AID

NOTICE OF PROPOSED AMENDMENTS

- 1) Heading of the Part: Medical Payment
- 2) Code Citation: 89 Ill. Adm. Code 140
- 3) Section Number:
- 140.413 Amendment

4) <u>Statutory Authority</u>: Section 12-13 of the Illinois Public Aid Code (Ill. Rev. Stat. 1991, ch. 23, par. 12-13) [305 ILCS 5/12-13], and Public Law

103-112.

S) Complete Description of the Subjects and Issues Involved: These emergency amendments to the Department of Public Aid's rules concerning medical payment and limitation on physician services, are intended to implement federal requirements imposed by recent revisions to the Hyde Amendment. According to the interpretation of these changes by the Health Care Financing Administration (HCFA), Medicaid coverage shall be provided for the termination of pregnancies resulting from rape or incest, as reported by the recipient. Currently, Section 140.413 specifies that only abortions necessary to preserve the life of the mother can qualify for Medicaid coverage. Therefore, this rulemaking is necessary to maintain compliance with federal interpretation of the Hyde Amendment.

Other changes are being made to Section 140.413 to remove outdated and duplicative language.

It is anticipated that implementation of these amendments will not result in any substantive increase in Department spending for abortion services. However, the actual economic impact of these amendments is unknown.

- 6) Will these proposed amendments replace emergency amendments currently in effect? Yes
- 7) Does this rulemaking contain an automatic repeal date? No
- 8) Do these proposed amendments contain incorporations by reference? No
- 9) Are there any other proposed amendments pending on this Part? Yes

Section 9 of the Illinois Groundwater Protection Act (III. Rev. Stat., 1991, ch 111 1/2, par. 7459) 415 ILCS 55/9]

A Complete Description of the Subjects and Issues Involved: 2

In this rulemaking, the Department is adopting the Pollution Control Board's rules regulating public water supplies at 35 III. Adm. Code 605, 607, and 611. Where the Department's rules are a duplicate of those rules, this rulemaking deletes the duplication.

Section 900.10. This amendment deletes definitions which are adopted in PCB rules.

Section 900.15. This amendment adopts PCB rules for public water supplies which include the non-community supplies regulated by the Department and deletes incorporated materials which are duplicative of the PCB rules.

Section 900.20. This amendment would clarify that the Illinois Environmental Protection Agency is responsible for certification of laboratories performing chemical analyses.

NOTICE OF PROPOSED AMENDMENTS

Section 900.30. This amendment deletes unnecessary reference to the Federal Register.

Section 900.40. This amendment deletes rules which are identical to PCB rules which are adopted in this rulemaking.

Sections 900.50, 900.60, 900.65, and 900.70. These sections are repealed since they are identical to PCB rules which are adopted in this rulemaking.

Section 900.80, 900.90, 900.100, and 900.TABLE D through TABLE I. These sections are repealed since they are identical to PCB rules which are being adopted.

Will this Rulemaking Replace an Emergency Rule Currently in Effect? 9

NOTICE OF PROPOSED AMENDMENTS

NOTE: Capitalization denotes statutory language.

Section 900.10 Definitions

"Applicant" means any person making application for a permit to construct or alter a public water system. "Cistem" means a source of water supply developed by intercepting rainfall with roof

"Confluent Growth" means a continuous bacterial growth covering the entire filtration area of a membrane filter or a portion thereof, in which bacterial colonies are not

"Contaminant" means any physical, chemical, biological or radiological substance or matter in water. "CT" means the product of the chlorine residual and chlorine contact time at the point of treatment required for 99.9 percent or 3-log inactivation of Giardia lambia cysts.

Department" means the Illinois Department of Public Health.

"Filtration" means a process for removing particulate matter from water by passing through porous media. "First Draw Sample" means a one liter sample of tap water that has been standing in plumbing pipes at least 6 hours and is collected without flushing the tap. "Groundwater Under the Influence" means surface water or water obtained from a well or a collector which is not in compliance with the Illinois Water Well Construction 'Maximum Contaminant Level" means the maximum permissible level of contaminant water system, except in the case of turbidity, where the maximum permissible level is in water which is delivered to the free flowing outlet of the ultimate user of a public measured at the point of entry to the distribution system. Contaminants added to the water under circumstances controlled by the user are excluded from this definition. 'Non-Transient Non-Community System" means a non-community water system which regularly serves the same 25 or more persons at least 6 months a year.

corporation, person doing business under an assumed name, county, municipality, the "Person" means any individual, group of individuals, association, trust, partnership,

NOTICE OF PROPOSED AMENDMENTS

State of Illinois or any political subdivision or department thereof, or any other entity.

"POTENTIAL PRIMARY SOURCE" MEANS ANY UNIT AT A FACILITY OR SITE NOT CURRENTLY SUBJECT TO A REMOVAL OR REMEDIAL ACTION WHICH:

IS UTILIZED FOR THE TREATMENT, STORAGE, OR DISPOSAL OF ANY HAZARDOUS OR SPECIAL WASTE NOT GENERATED AT THE SITE: OR

IS UTILIZED FOR THE DISPOSAL OF MUNICIPAL WASTE NOT GENERATED AT THE SITE, OTHER THAN LANDSCAPE WASTE AND CONSTRUCTION AND DEMOLITION DEBRIS; OR

IS UTILIZED FOR THE LANDFILLING, LAND TREATING, SURFACE IMPOUNDING OR PILING OF ANY HAZARDOUS OR SPECIAL WASTE THAT IS GENERATED ON THE SITE OR AT OTHER SITES OWNED, CONTROLLED OR OPERATED BY THE SAME PERSON; OR

STORES OR ACCUMULATES AT ANY TIME MORE THAN 75,000 POUNDS ABOVE GROUND, OR MORE THAN 7,500 POUNDS BELOW GROUND, OF ANY HAZARDOUS SUBSTANCES.

(Section 3.59 of the Environmental Protection Act, (III. Rev. Stat. 1991, ch. 111 1/2, par. 1003.59) [415 ILCS 5/3.59])

"POTENTIAL ROUTE" MEANS ABANDONED AND IMPROPERLY PLUGGED WELLS OF ALL KINDS, DRAINAGE WELLS, ALL INJECTION WELLS, INCLUDING CLOSED LOOP HEAT PUMP WELLS, AND ANY EXCAVATION FOR THE DISCOVERY, DEVELOPMENT OR PRODUCTION OF STONE, SAND OR GRAVEL. (Section 3.58 of the Environmental Protection Act, [III. Rev. Stat. 1991 ch. 111 1/2, par. 1003.58) [415 ILCS 5/3.58]).

"POTENTIAL SECONDARY SOURCE" MEANS ANY UNIT AT A FACILITY OR A SITE NOT CURRENTLY SUBJECT TO A REMOVAL OR REMEDIAL ACTION, OTHER THAN A POTENTIAL PRIMARY SOURCE, WHICH:

IS UTILIZED FOR THE LANDFILLING, LAND TREATING, OR SURFACE IMPOUNDING OF WASTE THAT IS GENERATED ON THE SITE OR AT OTHER SITES OWNED, CONTROLLED OR OPERATED BY THE SAME PERSON, OTHER THAN LIVESTOCK AND LANDSCAPE WASTE, AND CONSTRUCTION AND DEMOLITION DEBRIS;

OR STORES OR ACCUMULATES AT ANY TIME MORE THAN 25,000

ILLINOIS REGISTER

DEPARTMENT OF PUBLIC HEALTH

NOTICE OF PROPOSED AMENDMENTS

BUT NOT MORE THAN 75,000 POUNDS ABOVE GROUND, OR MORE THAN 2,500 BUT NOT MORE THAN 7,500 POUNDS BELOW GROUND, OF ANY HAZARDOUS SUBSTANCES; OR

STORES OR ACCUMULATES AT ANY TIME MORE THAN 25,000 GALLONS ABOVE GROUND, OR MORE THAN 500 GALLONS BELQW GROUND, OF PETROLEUM, INCLUDING CRUDE OIL OR ANY FRACTION THEREOF WHICH IS NOT OTHERWISE SPECIFICALLY LISTED OR DESIGNATED AS A HAZARDOUS SUBSTANCE; OR

STORES OR ACCUMULATES PESTICIDES, FERTILIZERS, OR ROAD OILS FOR PURPOSES OF COMMERCIAL APPLICATION OR FOR DISTRIBUTION TO RETAIL SALES OUTLETS; OR

STORES OR ACCUMULATES AT ANY TIME MORE THAN 50,000 POUNDS OF ANY DE-ICING AGENT; OR

IS UTILIZED FOR HANDLING LIVESTOCK WASTE OR FOR TREATING DOMESTIC WASTEWATERS OTHER THAN PRIVATE SEWAGE DISPOSAL SYSTEMS AS DEFINED IN THE "PRIVATE SEWAGE DISPOSAL LICENSING ACT" (III. Rev. Stat. 1991, ch. 111 1/2, par. 116.301) [225 ILCS 225/1].

(Section 3.60 of the Environmental Protection Act, (III. Rev. Stat. 1991, ch. 111 1/2, par. 1003.60) [415 ILCS 5/3.60])

"Public Water System" means a system for the provision to the public of piped water for human consumption, if the system has at least 15 service connections or regularly serves an average of at least 25 individuals daily at least 60 days per year. The term Public Water System includes any collection, treatment, storage and distribution facilities under control of the operator of such system and used primarily in connection with such system and any collection or pretreatment storage facilities not under such control which are used primarily in connection with such system.

Community Water System means a public water system which serves at least 15 service connections used by residents or regularly serves at least 25 residents for at least 60 days a year.

Non-Community Water System means a public water system that is not a community water system, that has at least 15 service connections used by non-residents, or regularly serves 25 or more non-resident individuals daily for at least 60 days a year and shall include vending machines.

"Sanitary Survey" means an on-site inspection of the water source, facilities,

NOTICE OF PROPOSED AMENDMENTS

equipment, operation, and maintenance of a public water system for the purpose of evaluating their adequacy for producing and distributing safe drinking water. "Service Connection" means the opening, including all fittings and appurtenances, at the water main through which water is supplied to the user. 'Slow Sand Filtration" means a process involving passage of raw water through a bed of sand at low velocity resulting in substantial particulate removal by physical and biological mechanisms. 'State" means the State of Illinois, Illinois Department of Public Health or the Illinois Environmental Protection Agency, as appropriate.

"Supplier of Water" means any person who owns or operates a public water system.

"Surface Water" means all water which is open to the atmosphere and subject to surface runoff.

"Too Numerous to Count" means that the total number of bacterial colonies exceeds

200 on a 47 mm diameter filter used for coliform detection.

"Fransient, Non-Community System" means a non community public water system which does not regularly serve the same 25 people.

"Vending Machine" means a device which provides treatment and/or dispenses a specific amount of water after money has been inserted into the device or after the water has been purchased.

illness, epidemiologically associated with the ingestion of water from a non-community "Waterbome Disease Outbreak" means the significant occurrence of acute infectious public water system.

Section 900.20 General Requirements

- Coverage. This Part shall apply to all non-community public water systems. a)
- Exception. This Part shall not apply to a public water system which meets all of the following conditions: 9
- Consists only of distribution and storage facilities (and does not have any collection and treatment facilities).
- Obtains all of its water from, but is not owned or operated by a public water system to which such regulations apply. 6
- Does not sell water to any person. 3
- Is not a carrier which conveys passengers in interstate commerce. 4
- monitoring purposes. Any modification in monitoring shall be approved in writing by other public water systems, the Department shall modify the monitoring requirements supply can be shown to have a contamination free sampling history to the extent that if one sampling point can be shown to be representative of the water supply and the Consecutive Systems. When a public water system supplies water to one or more the interconnection of the systems justifies treating them as a single system for the Department. <u>်</u>
- Permit to Construct. A permit to construct a non-community public water system must constructed, altered or extended, a permit fee, which is established in Section 920.130 be obtained from the Department prior to construction. Where a water well is to be the Illinois Water Well Construction Code, shall be required for the water well. Ŧ
- non-community public water system must be obtained from the Department prior to Permit to Alter or Extend. A permit for any major alteration of, or extension to, a construction. (e)
- public water system must be accompanied by plans and specifications. The plans and specifications must indicate all sources of contamination, the layout and design of the system and all associated equipment which will indicate compliance with this Part as Plans. All applications for a permit to construct, alter or extend a non-community G

DEPARTMENT OF PUBLIC HEALTH

NOTICE OF PROPOSED AMENDMENTS

stated in Section 900.40.

- Major Alterations or Extensions. Major alterations or extensions shall include, but not be limited to, the following: â
- Change in source of water supply. \Box
- Construction of additional sources of water supply. 5
- Provision of any new treatment to the system. 3
- Changes in system capacity. 4
- Increase in the water well depth. 3
- Notification of Completion. Upon completion of any construction for which a permit has been issued, the owner shall notify the Department. E
- solution; and satisfactory bacteriological sample results, in compliance with Section System Disinfection. All components of new non-community public water system construction, alteration, or expansion shall be disinfected with a strong chlorine 900.70 (a), shall be obtained prior to placing the components into service. <u>-</u>
- Certified Laboratory. All samples requiring laboratory analysis shall be analyzed only Agency in accordance with Certification and Operation of Environmental Laboratones certification shall be made by the Department or the Illinois Environmental Protection turbidity analyses may be conducted by anyone approved by the Department. The accordance with the above shall not be considered valid for purposes of this Part. by a laboratory which has been certified for the analysis in question, except that (35 III. Adm. Code 183,105). and 142,-52 Fed. Reg. 25690 through 25717, July 8, 1987 and 53 Fed. Reg. 25108 through 25111, July 1, 1988). The Department shall also require treatment or the discontinuance of the use of the non-community public water system, if the system is found to jeopardize public health or if the system is found to contain hazardous substances or disease causing organisms.

- b) Use of Chemical Additives. Chemicals approved for the treatment of water shall include, but are not limited to, chlorine and chemicals used for water softening, flocculation and coagulation. Such chemicals shall be approved if the method of feed and the concentration of these chemicals does not jeopardize the health of the user as determined by the Department pursuant to the level of toxicity of the chemical.
- C) The Department shall be notified of the occurence of any waterborne diseases outbreak by the water system operator as soon as the operator has information that such an outbreak has occurred.

Section 900.40 Water System Design

- Siting Requirements. Construction, alteration or expansion of a public water system shall be accomplished so as to:
- Avoid locating any or all of the facility at a site which is subject to undue risk from earthquakes, floods; or other disasters.
- Except for the intake structures, avoid locating any or all of the facility within the floodplain of a 100-year flood.
- Sources of pollution shall be located no closer to wells and finished water storage facilities than indicated in Table A. Beginning January 1, 1988, no new non-community water system well may be located within 200 feet of any potential primary or potential secondary source or any potential route, unless specifically allowed in Table A. Where the owner of a potable well is the same owner of a potential primary source, potential secondary source, or a potential route, the Department may allow a variance to the minimum separation distances required in this Part provided the owner complies with the variance provisions of Section 920.30(c) of the Illinois Water Well Construction Code.
- b) Existing Water System. The sanitary quality of an existing water system shall be determined by a survey of facilities and laboratory analyses of water samples. Defects in facilities or contamination shown present by laboratory analyses, shall be considered sufficient grounds for requiring repairs, chlorination or other treatment, or termination

ILLINOIS REGISTER

DEPARTMENT OF PUBLIC HEALTH

NOTICE OF PROPOSED AMENDMENTS

of the use of the system. All repairs, modifications, and alterations to existing wells and pump equipment shall be in accordance with the Illinois Water Well Construction Code (77 III. Adm. Code 920), the Illinois Plumbing Code (77 III. Adm. Code 920), and the Illinois Water Well Pump Installation Code (77 III. Adm. Code 925). Treatment will not be considered as a substitute for location and construction in accordance with the Illinois Water Well Construction Code. Wells terminating in pits shall not be allowed. Existing pits shall be eliminated and the floor or one wall of the pit shall be broken or removed, the pit shall be filled with compacted earth, and the casing shall be extended to terminate 8 inches above grade.

- c) New Well Construction. All new wells shall be constructed in accordance with the Illinois Water Well Construction Code.
- d) New Pumping Equipment. All new well pumps shall be installed in conformance with the Illinois Water Well Pump Installation Code.
- Illinois Environmental Protection Agency as a Class A, or Class B public water supply operator. The Department will approve such course provided the course is given by an treatment course approved by the Department, and have received a certificate or other ("Ten States' Standards"). Where average turbidity, based upon 30 daily samples, of provided in accordance with "Ten States' Standards." All systems which use surface Surface Water. Gravity filtration and disinfection shall be provided as the minimum operated, and maintained as described in the Surface Source Water Treatment Code, (77 III. Adm. Code 930) or in accordance with "Recommended Standards for Water evidence that the course has been completed satisfactorily, (such as a letter from the water, in whole or in part shall be operated by personnel which have taken a water education units, and the course addresses water filtration, disinfection, water supply school) or shall be operated by personnel which have received certification by the groundwater under the influence of surface water, and other surface collectors of Works - Great Lakes Upper Mississippi River Board of State Sanitary Engineers" and the measurement of disinfectant residual and turbidity. The Department shall the source exceeds 50 nephelometric turbidity units, complete treatment must be accredited college or university, the course is at least equivalent to .7 continuing water. Surface water supply treatment facilities shall be designed, constructed, treatment facilities for all supplies obtained from ponds, lakes, streams, rivers, make available a list of such approved courses upon request.
- Springs. Spring water supplies shall not be allowed except where it is impossible to develop a well which meets the water quality and capacity standards of this Part. Where springs are used for potable water, they shall be protected from entry of surface water, shall be housed in a permanent structure, and shall be chlorinated in accordance with Section 900.40 (n). Spring water supplies located in an area with sink-holes or outcropping rock, with a history of periodic discolored discharge, or subject to fecal contamination, as demonstrated by laboratory analysis, shall not be approved unless

G

NOTICE OF PROPOSED AMENDMENTS

provided with treatment consistent with that required for surface water.

- Cisterns. Cisterns shall not be used for public water supply except where groundwater resources will not produce the quantity of water needed for the population to be served. Cistern water shall receive treatment consistent with that required for surface water (See Section 900.40 (e)).
- Design Capacity. The design capacity for a non-community public water system shall be determined based on the estimated peak demand or the average daily consumption rate obtained from Table B.

P

- Hydropneumatic Storage. The minimum requirements for designing a hydropneumatic storage system are as follows:
- Well and Pump Sizing. The capacity of the well(s) and pump(s) in a hydropneumatic system shall be at least eight times the average daily consumption rate or shall be sufficient to meet the estimated peak demand, whichever is greater. (calculate the average daily consumption rate from Table B). If it can be shown that a specified amount of water is more appropriate or if the Department can be shown that the storage requirements are excessive, the Department will permit other sizing alternatives dependent upon such things as, but not limited to, water demand at the facility in question or water usage reports from a similar facility.
- Pressure Tank Sizing. The minimum capacity of the pressure storage tank shall be calculated by the following formula:

Q = Qm (3)/Pf

Where Qm = Pump capacity (g.p.m.)

Pf = Pressure Factors obtained from TABLE C.

 Precharged Pressure Tanks. The capacity of a precharge pressure storage tank shall be calculated by the following formula:

Qp = 1.5Qm/Pf

Where Qp = Precharged pressure tank volume, gal.

4) Existing Hydropneumatic Storage. An existing undersized pressure storage system may be allowed provided a history of adequate water supply exists. Major alterations shall comply with all requirements of Section 900.40(i).

ILLINOIS REGISTER

DEPARTMENT OF PUBLIC HEALTH

NOTICE OF PROPOSED AMENDMENTS

9

- Storage Reservoir. All nonpressure underground reservoirs shall be constructed of permanently watertight material and shall be provided with a watertight insect proof cover. Examples of permanently watertight materials are steel, plastic, concrete or fiberglass. On new water system installations, all nonpressure storage reservoirs in or on the ground shall be located in such a manner that surface water will flow away from the structure. When the bottom of any such reservoir is located below the ground surface, the reservoir shall be located with respect to sources of pollution as outlined in Table A. Where manholes are necessary, they shall have a raised curb and be provided with a cover of the overhanging type. Vents and openings shall be insect-proof and shall be installed so there is no hazard to the sanitary quality of the water supply. Plping shall enter the reservoir through the top of underground tanks or through the exposed vertical extension of the manhole opening. Points of entry must be sealed in a watertight manner. No suction lines may enter the reservoir underground unless protected by an external pipe enclosure maintained at system pressure.
- Water Distribution Lines. The system shall be designed to maintain a minimum positive pressure of 20 p.s.i. in all parts of the system at all times. Water pipe shall conform to applicable specifications and standards of the Illinois Plumbing Code (77 III. Adm. Code 890) for the type of pipe to be used. The following shall govern the separation of water lines from possible sources of pollution:

Q

- Whenever possible, a water line shall be laid at least 10 feet horizontally from any existing or proposed sewer line.
- Whenever water lines must cross sewers, the water line shall be laid at such an elevation that the bottom of the water line is 18 inches above the top of the sewer. This vertical separation shall be maintained for that portion of the water line located within 10 feet horizontally of any sewer or drain it crosses, said 10 feet to be measured as the normal distance from the water line to the drain or sewer. The sewer shall be constructed of cast iron pipe, type K copper, or Drain, Waste and Vent (DWV) plastic pipe (Schedule 40) with water-light joints for a distance of 10 feet from each side of the water line. All crossings shall be made at right angles.
- 3) Where conditions prevent the minimum horizontal and/or vertical separation specified above, special consultation shall be obtained from the Department to determine other routes of water piping.
- 4) No water line shall pass through, or come into contact with, any part of a sewer manhole.
- 5) There shall be no physical connection between a community water system and a non-community or private water system, unless the non-community or

ILLINOIS REGISTER

NOTICE OF PROPOSED AMENDMENTS

private water system conforms to community water system requirements, as specified by the Illinois Pollution Control Board's Public Water Supplies (35 Ill. Adm. Code 607.104).

 Lines for potable water shall be laid at least 25 feet horizontally from any underground sewage seepage field.

- Plumbing-Fixture Backflow Protection. The water supply lines shall have no physical connection with nonpotable water supplies. All plumbing shall be in accord with the Illinois State Plumbing Code available from this Department. All plumbing fixtures and other equipment connected to the water system shall be so constructed and installed so as to safeguard the water system from the possibility of contamination through cross-connections or backsiphonage. Laundry units and equipment shall be so constructed and installed so as to prevent the contamination of the contents by the backflow of sewage. When required by the Illinois Plumbing Code (77 III. Adm. Code 890), the fixture or appliance shall be connected indirectly with the drainage system by means of an open, funnel-type fitting with a suitable air gap.
- Drinking Fountains. All outlets established for the provision of drinking water shall consist of drinking fountains in accordance with requirements contained in the Illinois Plumbing Code, or a supply of single service drinking cups shall be provided. Common drinking cups are prohibited.

(E

G C

3)

Disinfection. Disinfection may be accomplished with calcium or sodium hypochlorites or gas chlorine. Other disinfecting agents will be considered, providing reliable application equipment is available, and testing procedures for residual are recognized in "Standard Methods for the Examination of Water and Wastewater". Proposals for use of disinfecting agents must be approved by the Department prior to preparation of final plans and specifications. Approval will be given only when the information shows that the chemical to be used as a disinfecting agent will not jeopardize the health of the user and that the chemical will eliminate bacteria from the water supply. Disinfection is required at all surface, spring, and cistem water supplies; and at any groundwater supplies which are be fquestionable sanitary quality or where any treatment which exposes the water to the atmosphere is provided. Disinfection shall not be a substitute for proper well location and construction.

4

Chlorination Equipment. The chlorinator shall be designed to provide a free chlorine residual of at least two milligrams per liter in the water after contact time of at least 30 minutes at maximum flow rates. The equipment shall be of such design that it will operate accurately over the desired feeding range. Where flow is uniform, actuation of a constant volume feeder by the pump circuit is required. Where flow is variable, automatic flow proportioning is required.

- carrying water from the filter shall terminate at the water surface of the storage surface water as a source and groundwater under the influence of surface water II. Adm. Cod 930), and shall meet disinfection requirements and CT values of source, shall have a minimum free chlorine residual of 0.2 mg/l maintained at chlorinating groundwater, provisions should be made for applying chlorine to ank. Water shall be withdrawn from a solid pipe at a point not more than 3 Contact Time and Point of Application. Chlorine shall be applied at a point which will provide the maximum contact time. At facilities treating surface residual of 0.4 mg/l shall be maintained in the water storage tank. The pipe shall be designed in accordance with the Surface Water Treatment Code (77 nches above the bottom of the water storage tank. Those systems utilizing least 0.1 milligram per liter except that systems utilizing surface water as a chlorine residual at distant points in a water distribution system shall be at water, chlorine shall be applied to the water after filtration. At facilities all distant points in the distribution system and a minimum free chlorine the detention basin inlet. Where chlorination is required, minimum free 10 CFR 141 and 142 (1990).
- Testing Equipment. Chlorine residual test equipment capable of measuring free chlorine residual shall be provided and should be capable of measuring residuals to the nearest 0.1 mg/1 in the range below 0.5 mg/1, to the nearest 0.3 mg/1 between 0.5 and 1.0 mg/1, and to the nearest 0.5 mg/1 between 1.0 mg/1 and 2.0 mg/1. Systems utilizing surface water as a source shall test the chlorine residual in the distribution system daily and keep a record of the results. Whenever the chlorine residual falls below the values specified in subsection(n)(2) above, the supplier of water shall notify the Department as soon as possible but no later than the end of the next business day.
- Hypochlorinator. Positive displacement pumps shall be provided to inject hypochlorite solution. The pump shall be of variable flow type and shall be of sufficient capacity to feed the required amount of disinfectant. If calcium hypochlorite is used, the concentration of calcium hypochlorite in the solution shall not exceed 5 percent. The solution container shall have a minimum capacity equal to the volume of solution required per day. The hypochlorinator shall be interlocked with the pump so that both will start and stop together.
- Gas Chlorinators.
- A) The chlorine supply and gas feeding equipment shall be in a separate, air-tight room. The room shall be provided with an exhaust system which takes its suction not more than 8 inches from the floor and discharges out-of-doors in a direction to minimize exposure to toxic fumes. The fan shall be capable of producing one air change per

NOTICE OF PROPOSED AMENDMENTS

minute. Means for introducing a fresh air supply to the enclosure shall be provided through appropriate openings, such as filters, grill openings, etc., at a high point opposite the exhaust fan intake. The room shall have a window at least 18 inches square and artificial illumination so that the chlorinator equipment is visible from the operating area outside the room. Electrical switches for lighting and ventilation shall be outside the room and adjacent to the door. Scales for weighing chlorine cylinders in service shall be provided and should have the platform at floor level.

- All chlorine cylinders, both full and empty, shall be anchored to prevent their falling over.
- The chlorine feeding device shall be designed so that during interruptions of the flow of the water supply, gas feed is automatically terminated. Chlorinator vent lines shall terminate out-of-doors.
- The gas feed equipment shall be solution feed type capable of delivering chlorine at its maximum rate without releasing chlorine gas to the atmosphere.
- The water supply for the gas feeding equipment shall produce the flow rate and pressure required according to the manufacturer's specifications for proper operation of the equipment. The release of chlorine shall be automatically terminated when the pump is shut off. The water supply line to the chlorine injector shall be equipped with an electric shut-off valve interlocked with the pump and shall be equipped with a suitable backflow preventer.
- Gas chlorinators shall be repaired and operated only in accordance with manufacturer's directions. The owner/operator shall determine the appropriate emergency personnel to contact in the event of a chlorine gas emergency, and have the telephone number of emergency personnel conspicuously posted within view of operating personnel.
- General. The chlorinator water supply piping shall be designed to prevent contamination of the treated water supply by sources of questionable water which may be contaminated. Housing must be provided for the chlorination equipment and for storing the chlorine.
- Hauled Water. When it is necessary to use hauled water as a source of public supply, the water shall be obtained only from a regulated public water system.
- Transport Equipment. Equipment used for hauling water, including tank trucks

ILLINOIS REGISTER

DEPARTMENT OF PUBLIC HEALTH

NOTICE OF PROPOSED AMENDMENTS

or trailers, hoses, etc., shall be used only for handling potable water. In an emergency, equipment used for handling other potable materials, such as milk, syrup, etc., may be used after cleaning and disinfection with not less than 100 ppm of free chlorine.

- Storage Facilities. Equipment used for the storage of hauled water shall be, used only for that purpose and shall be constructed in accordance with Section 900.40(i).
- Vending Machines. Vending machines which serve water to the public shall meet the following conditions:
- The source of water to a vending machine shall be obtained from a community water system or a supply which meets the construction and location requirements of this Part.
- A dual check backflow device approved in accordance with the Illinois Plumbing Code (77 III. Adm. Code 890) shall be installed in the water supply pipe between the vending machine and the source of water.
- 3) An air gap shall be provided between the water dispensing spout and the water container which is at least equal to 4 times the diameter of the water dispensing supply pipe.
- 4) The machine shall be kept in an area which is free of dirt and debris and the area shall be maintained to prevent insect and rodent harborage.
- Any overflow or discharge of water from the vending machine shall be indirectly connected to a sewer or to waste in accordance with the Illinois Plumbing Code.
- Sample Siting Plan. All non-community supplies shall designate sampling points from which to collect all required samples. If a kitchen tap is available, one sample shall be taken from this location.

NOTICE OF PROPOSED AMENDMENTS

non-community public water systems. Analysis for nitrite shall be conducted contaminant level. In addition, analysis shall be conducted within 12 months whenever any nitrite analysis is found to exceed the maximum contaminant level. The Department shall send sample bottles to all water suppliers and require that the suppliers collect the sample and return it to the designated within 12 months whenever any sample for nitrate exceeds the maximum annually and one sample for nitrite shall be collected initially on all Department laboratory.

- Non transient, non community and surface water systems. Analysis for nitrate Systems. Sampling for both chemicals must be conducted quarterly when the concentration of either chemical is equal to or greater than 50 percent of the initially on all surface water and non transient, non-community public water shall be conducted annually and one sample for nitrite shall be conducted maximum contaminant level. In such cases, the sampling frequency must remain quarterly until four consecutive quarterly samples are less than 50 percent of the maximum contaminant level for either chemical. **A**
- source, sampling for that chemical shall be conducted quarterly until two consecutive monitor for banum, cadmium, chromium, fluoride mercury and selenium once every system uses surface water in whole or in part as a source. Whenever the maximum contaminant level for any chemical is exceeded in a system using groundwater as a samples are less than the maximum contaminant level for that chemical. Whenever three years where the system uses groundwater as a source and annually where the surface water as a source, sampling for that chemical shall be conducted quarterly until four consecutive samples are less than the maximum level for that chemical. The sampling requirements for a system using groundwater or surface water as a Inorganic Chemicals. Non transient, non community public water systems shall the maximum contaminant level for any chemical is exceeded in a system using source shall be reduced to once every nine years provided; 4
- years and systems using groundwater as a source have conducted sampling Systems using surface water have been sampled annually for at least three once every three years for nine years, and, 7
- All results are less than the maximum contaminant levels for these inorganic chemicals. 4
- Asbestos 7
- Non-transient, non-community public water systems are not required to sample asbestos contamination in its source water or due to corresion of asbestos pipe, for asbestos unless the Department determines the system is vulnerable to or both. The Department shall consider the system vulnerable to asbestos 7

NOTICE OF PROPOSED AMENDMENTS

contamination where a source of asbestos material exists in the water source, or asbestos pipe is used in the water distribution system.

Vulnerable Systems. B

initial or any sample result is greater than the maximum contaminant level in a system using surface water as a source, the system must sample quarterly until sample result is greater than the maximum contaminant level for asbestos in a two consecutive samples are less than the maximum contaminant level. If the system using groundwater as a source, the system must sample quarterly until Thereafter, systems are required to resample every three years. If the initial sample for asbestos is equal to or less than the maximum contaminant level, If the system is determined by the Department to be vulnerable to asbestos contamination, the system shall monitor for asbestos. If the initial or any four consecutive samples are less then the maximum contaminant level. the system shall resample every 3 years.

4

- sample frequency in TABLE E every 6 months. A system which does not exceed the at a cold water interior tap from which water is typically used for consumption. Each sample shall be one liter in volume and have stood motionless in the plumbing piping TABLE F. A system which does not exceed the action levels for lead and copper for three consecutive years of monitoring shall collect a sample for lead and copper from All tap samples for lead and copper shall be first draw samples and shall be collected 1983. A system which exceeds the action levels for lead or copper shall perform the water systems shall begin sampling for lead and copper in accordance with Table E sampling sites that contain copper pipes with lead solder installed before January 1, by July 1, 1993, if they serve a daily population of less than or equal to 3,300. All the number of sampling sites in accordance with TABLE F once every three years. month periods may reduce the sampling frequency to annually in accordance with insufficient number of sampling sites meeting this condition, the system shall use begin sampling for lead and copper in accordance with TABLE E if they serve a systems shall collect samples for lead and copper initially in accordance with the daily population of greater than 3,300. All non transient, non community public action levels for lead or copper in any sample during each of two consecutive 6 Lead and Copper. All non transient, non-community public water systems shall for at least 6 hours. Samples shall be taken from copper-pipes with lead solder installed January 1, 1983 or later or which contain lead piping. If there are an ollowing:
- Sample Collection. The supplier shall sample for lead and copper in accordance with TABLE E every 6 months. Ŧ
- Collect Water Quality Parameters. The supplier of water shall collect two tap samples for each water quality parameter from the number of sampling sites 4

ILLINOIS REGISTER

DEPARTMENT OF PUBLIC HEALTH

NOTICE OF PROPOSED AMENDMENTS

water quality parameters reflecting corresion control for 2 consecutive 6 month collected to annually in accordance with TABLE H. Water quality parameters seriods may reduce the number of tap samples collected and must collect each accordance with TABLE H every 6 months. A system which maintains water specified in accordance with TABLE G every 6 months and submit all results sampling may reduce the frequency with which water quality parameters are to the Department within 30 days of analysis. A system which maintains quality parameters reflecting corrosion control for 3 consecutive years of water quality parameter from the number of sampling sites specified in shall include the following:

- alkalinity; a a â
 - calcium;
- conductivity: ₹
- water temperature; \$
- orthophosphate (only required when an inhibitor with a phosphate 1
- silica (only required used when an inhibitor with a silicate compound is compound is used); and
- corrosion control program. Systems which serve more than 3,300 people daily which will be applied. Such a corrosion control program shall be approved by writing explaining how the corrosion treatment has been installed and how it the Department. Approval of the program shall be based upon the ability of Corrosion Control Program. The supplier of water shall initiate an effective the program to provide water treatment which will result in a less corrosive will be maintained and operated, and any chemicals used and their dosages program within 24 months. The supplier shall report to the Department in shall begin the corrosion control program within 18 months, and systems water. Such a program may include adding chemicals to control pH or which serve 3,300 people or less daily shall begin the corrosion control alkalinity as a minimum. 1
- reduce the levels of lead and copper below maximum levels, the system Ineffective Program. Where the corrosion control program does not shall remove sources of lead from the plumbing system. A
- where the values of A, B, C and D are obtained from TABLE I, Exhibit calculated by the formula Saturation Index = (9.30 + A + B) - (C + D)Effective Program. The corresion control program shall be considered effective where the Saturation Index which indicates water corrosivity has a value of greater than zero. The Saturation index shall be A, B, C and D respectively.

NOTICE OF PROPOSED AMENDMENTS

- Provide Public Education. This public education program is required within 60 days of when the action level for lead has been exceeded. The supplier of water shall undertake a public education program to inform consumers that levels of lead have exceeded the action level and of ways they can reduce their exposure to promitally high levels of lead in drinking water. This can be accomplished by posters at the tap or other information such as pamphlets which are distributed to users of the water. In addition, the supplier shall make available and distribute information provided by the Department. Such information shall be placed in a common area in each building served by the system. This program shall be repeated at least once during each calendar year in which the system required to perform a lead action level. By December 31 of each year, any system required to perform a lead public information program shall submit a letter to the Department demonstrating that the system has delivered the public education and information materials as described in this Section.
- E) Reporting Information. Non transient, non-community systems shall report the following information to the Department for all tap samples within the first 10 days following the end of each required sampling period required in subsection (b)(4) below:
- the results of all lead and copper tap samples including the location of each site and the criteria under which they were selected in compliance with subsection 900.50(b) (4)(B)(i) and (ii) above, and
- ii) a certification which may be in the form of a letter that each first draw sample collected is one liter in volume and, to the best of their knowledge stood motionless in the plumbing system or lead service pipe for at least 6 hours, and
- iii) the results of all water quality tap samples required in subsection (b)(4)(A) above.
- E) Source Water Monitoring. The supplier of water shall collect a sample for lead and copper to determine their concentrations in the source water and to determine if treatment to remove these metals from the source water is needed where lead has been found previously in the source supply or where a lead contamination source exists.
- e) Maximum Contaminant Level Exceeded.
- Nitrate and nitrite. If the result of an analysis for nitrate or nitrite in a non-community public water system exceeds the maximum contaminant level, the taking of a second sample shall be initiated within 24 hours, and the average of the two analyses determined.

ILLINOIS REGISTER

DEPARTMENT OF PUBLIC HEALTH

NOTICE OF PROPOSED AMENDMENTS

- Askimum Contaminant Level Violations.—If the averaged results for nitrate or nitrite in a non-community public water system exceed the maximum contaminant level, the supplier of water shall give notice to the public in accordance with Section 900.80 of this Part, and begin monitoring the contaminant in question at a frequency established by the Department and shall continue until the maximum contaminant level has not been exceed in two successive samples or until a monitoring schedule as a condition to a variance, exemption or enforcement action becomes effective.—If the system is a non-transient, non-community system, the system shall sample in accordance with subsection (b)(1)(B) above.—Any frequency established by the Department will depend upon the season, location in relation to agricultural areas and previous fluctuations in nitrate and nitrite concentrations.
- 4) When any of the contaminant levels in Section 900.50 are exceeded, the supplier of water shall notify this Department as soon as possible. However, such notification shall be made not later than the end of the next day.

(Source: Repealed at 18 III. Reg.

Section 900.60 Turbidity (Repealed)

- Abximum Contaminant Levels. The maximum contaminant levels for turbidity in non-community water systems which use surface water in whole or in part, measured at a representative entry point to the distribution system, shall not exceed one turbidity unit (TU) in any sample, except that turbidity values greater than one and equal to or less than 5 TU may be allowed in 95 percent of the samples taken during a month if the supplier of water can demonstrate to the Department that the higher turbidity does not do any of the following:
- Interfere with disinfection.
- 2) Prevent maintenance of an effective disinfectant residual throughout the distribution system.
- 3) Interfere with microbiological determinations.
- Monitoring. Samples shall be taken by the supplier of water for non-community water systems which use surface water, in whole or in part, at a representative entry point(s) to the water distribution system at least once every four hours. Sampling frequency for turbidity may be reduced in a non-community public water system to once per day if the following conditions are met:
- The supply has a filtration system designed, constructed, operated and maintained as described in the Surface Source Water Treatment Code (77 III., Adm. Code 930).

ILLINOIS REGISTER

NOTICE OF PROPOSED AMENDMENTS

- Minimum free chlorine residual at distant points in the distribution system is at least 0.2 milligram per liter.
- Written approval from the Department has been issued. Approval will be based upon compliance with the above items.

T

Maximum Contaminant Level Exceeded. If the results of a turbidity analysis indicate that the maximum allowable limit has been exceeded, a second sample shall be analyzed as soon as practicable and preferably within one hour. If the repeat sample confirms that the maximum contaminant level has been exceeded, the supplier of the water shall report to the Department as soon as possible but not later than the end of the next business day. The repeat sample shall be used to calculate the monthly average. If the monthly average exceeds the maximum contaminant level, or if the average of two samples taken on consecutive days exceeds 5 Turbidity Unit (TU), the supplier of water shall report to the State and notify the public as directed in Section 900.80.

NOTICE OF PROPOSED AMENDMENTS

has been notified of the sample results. If the system has only one service connection, analyses a set of five additional samples the next month the system provides water to before the end of the next business day. The supplier need not notify the Department point, it shall be considered a check sample. If any routine or repeat sample is total medium to determine if fecal coliforms are present, except that the supplier may test the public. If a subsequent sample has already been taken from the same sampling Department office is closed, in which case the supplier shall notify the Department for E. coli in lieu of fecal coliforms. If fecal coliforms or E. coli are present, the all check and repeat samples shall be taken at the original sampling point. If the system collects fewer than five routine samples each month it shall collect for coliform positive, the supplier shall analyze that total coliform positive culture supplier shall notify the Department by the end of the day when the supplier is notified of the test result, unless the supplier is notified of the result after the if the original sample was analyzed in a Department laboratory.

water taken from a particular sampling point has been confirmed by examination of a Maximum Contaminant Level Violations. When the presence of coliform bacteria in check sample, the supplier of water shall;

4

- daily, or at intervals established by the Department, until the results obtained contamination and any previous history of contamination of the water supply. Initiate an investigation, and collect additional samples from the same point from each of four consecutive check samples show less than one coliform bacterium per 100 milliliters, or no positive portions. Sampling intervals, established by the Department, will depend upon the severity of the 7
- Department determines that no health hazard has actually existed based upon Notify the public served, as prescribed under Section 900.80, unless the investigation or knowledge of the circumstances. **A**
- Notify the Department immediately upon receipt of sample analysis. 1
- Sample Location. The location at which the check samples were taken shall not be eliminated from future sampling. 7
- Special Purpose or Check Samples #
- The results from all coliform bacterial analyses, except those obtained from special purpose samples, invalid samples or samples with unreliable examination results, shall be used to determine compliance with the maximum contaminant level for coliform bacteria. #
- Check samples shall be included in calculating the total number of samples taken each month to determine compliance. 4

Section 900.80 Public Notification (Repealed)

- persons served by the system, as long as the failure, or the variance or exemption continues... The posting shall be visible to all users of the water. The notification shall conform to the Non-Community Water Systems. If a non community public water system fails to comply prescribed pursuant to a variance or exemption, the supplier of water shall give notice by with an applicable maximum contaminant level in this Part, or is granted a variance or conspicuous posting of such failure, or granting of such variance or exemption to the exemption from a maximum contaminant level, or fails to comply with a schedule requirements of 40 CFR 141, 142 and 143, (1989). #
- Notice Form. Notices shall be written in a manner reasonably designed to fully inform users of the system as follows: #
- The notice shall be conspicuous. #
- It shall not use unduly technical language. 4
- It shall not use unduly small print, or other methods which would frustrate the purpose of the notice. 7
- appropriate, a clear statement that a drinking water regulation has been violated and it shall disclose all material facts, including the nature of the problem and, when any preventive measures that should be taken by the public. 4

Section 900.90 Record Maintenance and Reporting (Repealed)

- Records. Any owner or operator of a public water system subject to the provisions of this
 Part shall retain on its premises or at a convenient location near its premises the following
 records:
- Pecords of bacteriological analyses made pursuant to these rules shall be kept for not less than 5 years. Records of chemical analyses made pursuant to these rules shall be kept for not less than 10 years. Actual laboratory reports may be kept, or data may be transferred to tabular summaries, provided that the following information is included:
- The date, place and time of sampling, and the name of the person who collected the sample;
- B) Identification of the sample (i.e., raw or distribution system, check, special purpose, etc.);
- C) Date of analysis;
- D) Laboratory and person responsible for performing the analysis, and
- E) The results of the analysis.
- 2) Records of action taken by the system to correct violations of primary drinking water regulations shall be kept for a period not less than 3 years after the last action taken with respect to the particular violation involved.
- 3) Copies of any written reports, summaries or communications relating to sanitary surveys of the system, shall be kept for a period not less than 10 years after completion of the sanitary survey involved.
- Records concerning a variance or exemption granted to the system shall be kept for a period ending not less than 5 years following the expiration of such variance or exemption.

DEPARTMENT OF PUBLIC HEALTH

NOTICE OF PROPOSED AMENDMENTS

b) Reporting

- The owner or operator of a public water supply system shall submit to the Department copies of any of the above records (See-Section 900:90(a)) when a contamination problem exists.
- Where analyses are run by other than a State or other certified laboratory (such as turbidity analyses conducted by the operator), reports of analyses shall be submitted to the Department.
- 3) Within 10 days of completion of each public notification, the supplier of water shall submit to the State a representative copy of each type-notice distributed, published, posted, or otherwise made available to persons served by the system or to the media, unless the notice has been provided to the supplier by the State.

(Source: Repealed at 18 III. Reg.

Section 900.100 Variances and Exemptions (Repealed)

a) Variances

- One or more variances from an applicable Illinois drinking water regulation respecting a maximum contaminant level, treatment technique, or both, shall be granted to a non-community public water system based on one of the following conditions:
- A) The available sources of raw water have characteristics that cannot meet the maximum contaminant levels, despite the application of best available technology, taking costs into consideration, and that an unreasonable risk to public health will not result.
- A public water system demonstrates to the Department's satisfaction that a treatment technique specified by the regulations is not necessary to protect the health of the persons because of the nature of the raw water source of such a system (Sec 40 CFR 141 and 142, 52 Fed. Reg. 25690 through 25717, July 8, 1987, and 53 Fed. Reg. 25108 through 25111 July 1, 1988). The system would be evaluated based upon the information available, the ability of the proposal to provide water which would not cause disease or endanger public health, and the ability of the supply to provide water in compliance with this Part.
- Precedure for Obtaining a Variance. The precedure for obtaining a variance is as follows:

DEPARTMENT OF PUBLIC HEALTH

NOTICE OF PROPOSED AMENDMENTS

- Application for the variance must be made by the non-community public water system to the Department. The application shall be in the applicant's own words, containing a narrative with justification as to why the variance is #
- for progress for variances issued with regard to maximum contaminant levels. The Department will propose a schedule for compliance including increments 4
- The Department will then provide notice and opportunity for public hearing. Φ
- The non community public water system must implement any control measures the Department may require upon granting a variance. 4
- conditioned on compliance by the non community public water system with Variances issued with regard to maximum contaminant levels will be any prescribed schedule. 4

Exemptions 4

- respecting a maximum contaminant level, treatment technique, or both, may be granted to a non community public water system based on all of the following One or more exemptions from an applicable Illinois drinking water regulation conditions: #
- water system from meeting either a maximum contaminant level or a treatment That compelling factors such as economics prevent a non community public technique requirement. 4
- That the non-community public water system was in operation on the effective date of such contaminant level or treatment technique requirement. A
- health which would include, but would not be limited to, installation of a water That the granting of the exemption will not result in an unreasonable risk to supply near a source of contamination or pollution. Û
- Procedure for Obtaining an Exemption. The procedure for obtaining an exemption is as follows: 4
- Department for an exemption. The application shall be in the applicant's own words, containing a narrative with justification as to why the variance is The non-community public water system must make application to the needed. 7
- The Department will issue a schedule of compliance including deadlines for B)

DEPARTMENT OF PROFESSIONAL REGULATION

NOTICE OF ADOPTED AMENDMENTS

Section 1150.10 Category I - Education Requirements and Diversified Professional Training Requirements for Individuals Whose Education Was Initiated After January 1, 1990

The education and diversified professional training required for examination for licensure under the Illinois Architecture Practice Act (Ill. Rev. Stat. 1991, ch. 111, pars. 1301 through 1340) [225 ILCS 305] (the Act) is set forth in this Section and Section 1150.20. Applicants initiating their education after January 1, 1990, shall meet the requirements set forth in this Section. Individuals who initiated their training prior to the effective date of this Section may have the training evaluated pursuant to this Section or Section 1150.20.

a) Education Requirements

- 1) Applicants with a professional degree from a program accredited by the National Architectural Accrediting Board (NAAB):
- 4) Bachelor of Architecture degree; or
- B) Master of Architecture degree.
- 2) Applicants with a degree from a program not accredited by the NAAB:
- A) A pre-professional 4 year baccalaureate degree program in architecture approved by the Board in accordance with Section 1150.50 of this Part, which is accepted for direct entry into a professional Master of Architecture degree program accredited by the NAAB; or
- B) Completion of the education requirements as specified in the National Council of Architectural Registration Boards (NCARB) Circular of Information No. 3, as certified by NCARB.

b) Diversified Professional Training Requirements

1) An applicant must complete either the Intern Development Program (IDP) of the National Council of Architectural Registration Boards (NCARB), 1735 New York Avenue, N.W., Suite 700, Washington, D.C. 20006, or the training

NOTICE OF ADOPTED AMENDMENTS

The applicant may satisfy the requirements in effect at the time the training commenced. requirements set forth in this Section.

- K of the NCARB IDP Guidelines. (A copy of these guidelines is available hours of acceptable activity. Acceptable activities are set forth in Appendix To satisfy diversified professional training requirements, each applicant must acquire a minimum number of value units based on the education requirements set forth in subsection (3) below. One value unit equals eight from the Department or NCARB.) Applicants may earn value units for training acquired through one of three ways: 7
- Participation: experience is acquired when the applicant actually performs a particular task; or (Y
- Observation: experience is acquired when the applicant works under the direction and control of a licensed architect who is performing the task; <u>B</u>
- Supplemental education training approved by the Board in accordance with IDP Guidelines. 0
- Value units shall be earned in prescribed categories and under requirements set forth in Appendix A of this Part. The required number of value units will vary according to the following educational requirements: ଚା
- subsection (a)(1) and (a)(2)(B) shall complete 700 value units pursuant to Applicants who meet the educational requirements set forth Section 1150. Appendix A, Column (1). (A)
- Applicants with a pre-professional 4 year baccalaureate degree set forth in subsection (a)(2)(A) shall complete 1170 value units pursuant to Section 1150. Appendix A, Column (2). B
- Department. When an applicant maintains his/her own training records, the All applicants may utilize NCARB to collect, evaluate and certify all training data and records required for compliance with this Part, or applicants may choose to maintain their own training records on forms provided by the applicant accepts full responsibility for a continuous accurate record of verified experience and will only have the training records evaluated after 4

DEPARTMENT OF PROFESSIONAL REGULATION

NOTICE OF ADOPTED AMENDMENTS

- 4) Any training claimed by an applicant shall be validated by the supervising architect(s) on forms supplied by the Department.
- 5) Full-time employment with one 1 employer of less than one 1 month duration shall not be counted toward the training requirements of this Section.
- 6) Part-time employment for periods in excess of twe 2 consecutive months shall be counted as one half week for each 20 hours of employment.
- 7) Full-time teaching experience of 2 academic years in an approved architecture program will be counted as 1 year of training. A maximum of 1 year of training shall be given for teaching experience. Any teaching experience claimed must be validated by the chief administrative officer of the school offering the architectural program.
- 8) An applicant cannot earn more that 40 hours per week of approved training (i.e., overtime does not qualify for additional approved training). One year is considered to be a period of 52 weeks with a minimum of 35 hours per
- 9) In lieu of the above training, the Department shall accept the Intern Development Program of the American Institute of Architects National Council of Architectural Registration Boards (NCARB).
- <u>Diversified Professional Training Commenced after December 31, 1993, shall meet</u> the following requirements:
- applicant must have training credits in accordance with the level of education scheduled under subsections (a)(1) through (a)(4) of this Section or have satisfied the IDP training requirements in accordance with Appendix A of this Part. An applicant who has satisfied these training standards is expected to have been exposed to the comprehensive practice of architecture. Accordingly, each applicant must demonstrate that his or her training has been sufficiently diversified as to include exposure to each of the training areas set forth in Appendix A and IDP Guidelines. (An applicant with the required number of training credits may nonetheless be denied approval of training if that training is not diversified.) The following table sets forth the ways in which training credits may be acquired:

DEPARTMENT OF PROFESSIONAL REGULATION

NOTICE OF ADOPTED AMENDMENTS

2) Program Requirements

- A) No training credits may be earned prior to satisfactory completion of:
- i) Three years in an NAAB-accredited professional degree program.or
- ii) The third year of a 4 year pre-professional degree program in architecture accepted for direct entry to an NAAB-accredited professional master's degree program; or
- iii) One year in an NAAB-accredited professional master's degree program; or
- iv) 96 semester credit hours as evaluated by Education Evaluation Services for Architects (EESA) in accordance with NCARB Circular of Information No. 3 of which no more than 60 hours can be in the general education category; or
- y) Five education credits in the circumstances described in subsections (a)(3) and (a)(4) of this Section in accordance with Circular of Information No. 3.

1 Year

Note: 32 semester credit hours or 48 quarter credit hours shall equal one year in an academic program.

- B) No experience used to meet education requirements may be used to earn training credits.
- C) To earn credits under subsection (c), an applicant must work at least 35 hours per week for a minimum period of 10 consecutive weeks under subsection (c)(1)(B) or 6 consecutive months under subsections (c)(1)(C). (D) or (E). An applicant may earn one-half of the credits specified under subsection (c)(1)(B) for work of at least 20 hours per week in periods of 6 or more consecutive months. No credits will be given for part-time work in any category other than subsection (c)(1)(B).
- D) To earn credit under subsection (b)(1)(E), an applicant's credit hours must be in subjects evaluated by NCARB as directly related to architecture; 20 semester credit hours or 30 quarter credit hours of teaching or equivalent time in research will equal one year.

NOTICE OF ADOPTED AMENDMENTS

- E) A person practices as a "principal" by being:
- A licensed architect; and
- ii) The person in charge of the organization's architectural practice, either alone or with other licensed architects.
- E) A "licensed architect" is a person licensed to practice architecture in the jurisdiction in which he/she practices.
- G) No credit will be given for training in a foreign jurisdiction unless the training was under the direct supervision and control of an architect licensed in a U.S. jurisdiction or training approved by the Department upon recommendation of the Board.
- 3) The verification of training shall be submitted to the Department at the time of application for examination as an architect.
- 4) If the accuracy of any submitted documentation or the relevance or sufficiency of the training is questioned by the Department or the Board because of discrepancies or conflicts in information, a need for additional information or information needing further clarification, the applicant will be requested to provide such information as necessary.
- d) In lieu of the above training, the Department will accept successful completion of the Intern Development Program of NCARB.

Section 1150.85 Acts Constituting the Practice of Architecture Pursuant to Section 5 of the

a) Design/Build

1) The design/build project delivery process is a method whereby an entity signs a single contract to provide a combination of architectural and construction services with the architectural services provided by an independent architect licensed to practice architecture in Illinois and a construction firm to provide construction services.

ILLINOIS REGISTER

DEPARTMENT OF PROFESSIONAL REGULATION

NOTICE OF ADOPTED AMENDMENTS

- The design/build entity will not be required to register as a professional design firm pursuant to Section 21 of the Act only if the services in the design/build project delivery process are provided by the entity in accordance with the following:
- An architect licensed or a professional design firm registered in Illinois independently contracts with the entity and participates substantially in all material aspects of the offering and providing of architecture services relating to any bid process, contract negotiations, design, consultation, development, preparation and coordination of construction documents, and verification of adherence to construction documents and completion.
- At the time of offering services, a written disclosure identifying the architect is given to the client by the entity that, upon awarding of the contract, the architect will be engaged by and be contractually responsible to the entity offering design/build project services.
- C) The entity agrees that the architect will have direct supervision of the architectural work and the architect's services will not be terminated on the project without the immediate replacement by another architect mutually agreed to by the client and the entity.

b) Architectural Competitions

- 1) Participants in architectural competitions in Illinois shall comply with the Act. All services, such as preliminary design and design development, are to be prepared by or under the direct supervision and control of an Illinois licensed architect.
- 2) If an architectural competition is conducted in an academic setting or the project is fictitious and will not be constructed, a person/professional design firm is not required to be licensed in Illinois.

- or professional responsibilities may be subject to disciplinary action by the A therapist who is convicted of any crime related to his/her qualifications (e)

NOTICE OF ADOPTED RULES

Department. Likewise, a therapist who engages in conduct which could lead to conviction of a crime related to his/her qualifications or professional responsibilities may be subject to disciplinary action.

A therapist who becomes impaired and unable to function according to the standards of practice may be subject to disciplinary action if an active practice continues. Causes of impairment may include, but are not limited to, the abuse of mood altering chemicals and physical or mental problems.

(J

- g) It is the responsibility of therapists to seek supervision and/or personal therapy for any problem that is interfering with their ability to perform their professional services.
- A therapist must not subject a client to discrimination based on race, gender, religion, national origin, political affiliation, social or economic status, choice of lifestyle, sexual or affectional orientation.
- A therapist must inform a client of any conflict of interest, values, attitudes, or biases between them that are sufficient to impair their professional relationship. Either the client or the therapist may terminate the relationship. However, it is the therapist's responsibility to terminate the professional relationship when it no longer serves the client's needs or interests. It is the responsibility of the therapist to facilitate termination and to assist in referring the client to another professional. Termination should be handled with care and sensitivity.
- j) A therapist has the responsibility to be informed of other professional, technical, and administrative resources available to clients. A therapist must utilize those resources and/or refer clients when it is in the best interests of the client.
- k) A therapist must make a referral upon client request regardless of administrative and/or funding mandates.
- A therapist must not allow an individual or agency paying for the professional services to a client to exert undue influence over the therapist's work performance and clinical judgment.
- m) A therapist must offer all facts regarding services rendered to the client prior to administration of professional services. The purpose of informed

Addition of the provision of child care services for non-JOBS

individuals.

Deletion of references to the priority order in which volunteers are served, the order in which mandated clients are called in, the target group of AFDC applicants who received AFDC in 36 of the last 60 months and the use of the Bachelor Degree program application form since these references are no longer required.

Addition of permitting conciliation by telephone when both parties agree.

Addition of a participation requirement that curriculum changes in education/training must be made with the prior approval for Project

Addition that a Community Work Experience work assignment is for six months in a 12 consecutive month period.

Deletion of the sanction reason that failure to report to a job readiness skills training session may result in sanctioning.

Addition of a Post Secondary Education approval criterion to require that the individual be underemployed or unemployed and in need of additional education.

Clarification that educational programs must be the least costly in supportive services.

Clarification that the 75% participation rate in component activities applies to not only attendance but all scheduled activities such as employer contact activities and work assignments.

Addition that an Unemployed Parents Work Experience assignment can be 40 hours each week for two weeks on followed by two weeks off.

Addition in the Community Work Experience and Unemployed Parents Work Experience components that sponsors are not to use clients to displace positions or persons who are already employed.

Addition that a regular employee at the Work Experience site can appeal to the U.S. Department of Labor.

JOBS and will be approved when the change is consistent with the employability plan.

b) Job Skills Training (Vocational)

Job Skills Training is designed to increase the individual's ability to obtain and maintain employment. Job Skills Training activities will include vocational skill classes designed to increase a participant's ability to obtain and maintain employment. Job Skills Training may include certificate programs.

- Self-initiated activity qualifies as "self initiated education or training" for this component if:
- A) The participant is attending at least half-time as defined by the institution;
- E) The participant is making satisfactory progress in such institution, school or course;
- C) The course of study is consistent with the individual's employment goal; and
- D) The participant meets the assignment and approval criteria under the provisions of Section 112.78(b)(2)(A) thru (J).
- 2) Approval Criteria For Job Skills Training (Vocational)
- A) The individual's program must be accredited under requirements of state law.
- B) The individual must be underemployed or unemployed and in need of additional training and the training will better prepare the participant to enter the labor force.
- C) The individual must have a high school diploma or GED if required for training requirements and/or employment in the chosen field.
- D) The individual must apply for all available educational benefits such as the Pell grant and scholarships from the Illinois Student Assistance Commission, as well as any scholarship or grants identified by the education or training facility for which the participant may be eligible.

NOTICE OF ADOPTED AMENDMENTS

Section 112.78(b)(2) (continued)

- E) The individual must be enrolled full-time as defined by the institution or part-time if full-time is not available or appropriate.
- When the individual possesses an associate degree, license or certificate, the program selected must result in an increase in the level of the individual's earnings upon completion. Otherwise, no additional training will be approved unless, due to a change in the economy or occupation, there are not jobs available in the individual's chosen occupation. If the individual possesses a baccalaureate degree, no additional education or training will be approved.
- G) The individual must be in a program needed for the individual to obtain employment in a recognized occupation.
- H) Jobs must be available in the chosen field in a specific geographical area where the individual intends to work consistent with the individual's employability plan upon completion.
- I) When programs of comparable quality are available in more than one geographical area, the program selected will be the least costly in transpertation supportive service costs to the Department. When programs of comparable quality are available in the same geographical area, the individual may select a preferred program.
- Job skills training may be combined with other component activities if it is determined appropriate.
- K) The individual must possess the aptitude, ability and interest necessary for success in the selected program as determined by such factors as test results and educational/training background.

3) Participation Requirements

- A) Participation must be full-time unless a full-time program is not readily available or a part-time program is most appropriate based on the individual's or family's circumstances.
- B) The individual must maintain attendance participation of at least 75% unless there is good cause for missing more.

ILLINOIS REGISTER

DEPARTMENT OF PUBLIC AID

NOTICE OF ADOPTED AMENDMENTS

Section 112.78(b)(3) (continued)

- C) The individual must maintain a "C" average if this measurement is used by the institution to determine satisfactory progress. The individual will be allowed one semester below a "C" average to bring the grades up to a "C" average. When grades are not used, progress will be determined by the written policy of the institution to establish a comparable grade level upon completion of the academic term.
- D) The individual must participate an average of twenty-(20) hours each week unless special circumstances prevent twenty (20) hours of participation each week.
- bours each academic term to maintain satisfactory progress, except in the following situation. If the client withdraws from one or more scheduled courses during an academic term, the client must complete all scheduled enrollment hours during the following academic term. The client may withdraw from one or more scheduled classes in more than one academic term, but must complete all scheduled enrollment hours the following academic term to maintain satisfactory progress.
- E) Curriculum changes must be made with the prior approval of JOBS and will be approved when the change is consistent with the employability plan.

c) Job Readiness

- 1) The job readiness component is designed to enhance the quality of the individual's level of participation in the world of work while learning the necessary essentials to obtain and maintain employment. This component helps individuals gain the necessary job finding skills to help them find and retain employment that will lead to economic independence.
- 2) Assignment to Job Readiness

Job readiness activities may be combined with other component activities if it is determined appropriate.

3) Participation requirements

A) Participation must be full-time unless a full-time program is not readily available or a part-time program is most

appropriate based on the individual's or family's circumstances.

- So The individual must attend all scheduled classes or sessions. The individual must be making satisfactory progress as defined by the written policy of the job readiness provider and approved by the Department. If there is a job search component in the program, the individual must make up to ten (40) acceptable employer contacts in a thirty-(30) day period unless the participant shows good faith effort (see subsection (d)(3)(B) for the definition of "good faith effort").
- C) The individual must participate <u>an average of twenty-</u>(20) hours each week unless special circumstances prevent twenty (20) hours of participation each week.
- The individual must respond to a job referral, accept employment and respond to mail-in contact.
- E) The individual must maintain participation of at least 75% unless there is good cause for missing more.

d) Job Search

1) Description of Job Search

Job Search may be conducted individually or in groups. Job Search includes the provision of counseling, job seeking skills training and information dissemination. Group job search may include training in a group session.

- 2) Assignment to Job Search
- A) Participation in the Job Search component can not be in excess of eight-(8) weeks (or its equivalent) in any period of twelve-(12) consecutive months.
- B) Job ready individuals may be assigned to Job Search.
 Individuals completing education or training or job skills
 training or job readiness training may be assigned to Job
- C) Job Search may be combined with other component activities if it is determined appropriate.

Section 112.78(k)(4) (continued)

B) Entry into Unemployed Parents Parent Work Experience

The Unemployed <u>Parents</u> Parent Work Experience participant must be one parent in the AFDC-U case unless he/she is exempt under one of the exemption criteria (see Section 112.71). If one parent is exempt, the other parent must participate in Unemployed <u>Parents</u> Parent Work Experience unless he/she is also exempt.

C) Unemployed Parents Parent Work Experience Positions

A participant shall be assigned to an Unemployed <u>Parents</u>
Parent Work Experience position based on work history,
prior training, experience, skills and vocational
preference. The date the participant is scheduled to begin
the work assignment marks the beginning of participation in
Unemployed <u>Parents</u> Parent Work Experience.

- D) Unemployed <u>Parents</u> Parent Work Experience activities may be combined with other component activities if it is determined appropriate.
- 5) Participation Requirements
- A) During the work assignment period, the client must make a good faith effort to complete five (5) employer contacts in each thirty-(30) day period.
- B) Failure to make the required number of employer contacts each thirty-(30) day period without good cause may result in sanction. A client will not be sanctioned fer-failure to-make if he/she makes a good faith effort to complete and provide verification of the required number of employer contacts (see Section 112.78 (4)(3)(B)).
- C) The client must maintain satisfactory participation of at least 75% of all scheduled hours each month. Participation may include the work assignment, attendance in Education (below postsecondary), and/or completion of employer contact activities.
- D) The client attending a work assignment must participate twenty-{20} hours each week or 40 hours each week for two weeks followed by two weeks off.
- 6) Reassessment

NOTICE OF ADOPTED AMENDMENTS

Section 112.78(k)(6) (continued)

A reassessment must be conducted with the participant at least once every twelve-(12) consecutive months.

Displacement 7

- The Unemployed Parents Work Experience Sponsor shall not participants to: nse A)
- displace positions or persons who are already employed Sponsor, regardless of whether those employees are on This includes partial displacement such as reduction in hours of non-overtime work, wages or employment as regular full-time or part-time employees of the or any other reason. active status or are on leave status due to disability, personal reasons, benefits; or į)
- displace persons who are or have been involved in a labor dispute between a labor organization and the Sponsor; or ii)

Section 112.85 Four Year College/Vocational Training Demonstration Project

- a) In the Four Year College/Vocational Training Demonstration Project, the Department provides information, referral, counseling services, and supportive services to increase clients' long-term employment potential. Clients are notified by mail twice a year of the Demonstration Project and are advised to make application with JOBS Project-Change staff within thirty-{30} days of the notice.
- b) Entry Into the Component

The assignment into the Four Year College/Vocational Training Demonstration Project is based on approval by the Department. The Department's approval shall be based on:

10847

DEPARTMENT OF PUBLIC AID

NOTICE OF ADOPTED AMENDMENTS

Section 112.85(b) (continued)

- 1) the eligibility criteria listed below; and
- the need to ensure a statewide geographical distribution of participants in the Demonstration Project.

c) Eligibility Criteria

In order to be eligible for the Demonstration Project, the following criteria must be satisfied.

- 1) The client possesses a high school diploma or GED certificate.
- 2) The program selected makes the client employable (see Section 112.78(a)(2)). Consideration shall be given to the time required to complete the program, as well as the overall cost and quality of the program.
- 3) The client must be enrolled in post-secondary education for which jobs will be available upon completion of training as determined by Job Service and/or other documented and reliable sources (e.g., Horizons, Department of Commerce and Community Affairs and/or the placement officer at an educational institution or facility).
- The client has the aptitude, ability and interest necessary for success in the particular educational or training program (as determined by such factors as test results, educational background and previous training).
- The program is administered by an educational institution accredited by ISBE or the Department of Registration and Education.
- 6) The client must apply for the Pell grant and scholarships from the Illinois State Scholarship Commission, as well as any scholarships or grants identified by the education or training facility for which the registrant may be eligible.
- 7) The client must be enrolled in a full-time program unless:
- A) a full-time program is not readily available (e.g., a full-time GED program is not available); or
- B) a part-time program is more appropriate (e.g., the client only needs a four {4} hour course to complete his/her educational or training program).

ILLINOIS REGISTER

DEPARTMENT OF PUBLIC AID

NOTICE OF ADOPTED AMENDMENTS

Section 112.85 (continued)

- Participation Requirements
- The client shall maintain a level of satisfactory attendance and progress as established and reported by the educational facility.
- 2) The client shall provide verification of attendance and progress (i.e., statements signed by the instructor, educational records and reports prepared at the end of the term. Additionally, if the Department is paying for child care and/or transportation to enable the client to participate in the Four Year College/Vocational Training Demonstration Project, the client must provide monthly verification of his attendance.).
- 3) Curriculum changes can be made only with the prior written aproval of the JOBS Preject-Ghange worker. Prior approval will be granted when the curriculum change is consistent with the written goal of the training program.
- e) Participants in the Demonstration Project will be eligible for the same supportive services accorded to clients in other education/training activities of the pre-employment component of JOBS Preject-Ghanee (as identified at Section 112.82),

f) Reassessment

The JOBS Preject-Ghance worker shall contact clients on a monthly basis if the supportive service payments identified in Section 112.82 are issued. Clients not requiring supportive service payments or receiving these payments from another source shall be contacted once each semester. Client contact consist of attendance reports, proup or individual sessions, on-site program visits and written correspondence.

NOTICE OF EMERGENCY AMENDMENTS

- 1) Heading of the Part: Medical Payment
- 2) Code Citation: 89 Ill. Adm. Code 140
- 3) Section Number: Emergency Action:

40.413

Amendment

- 4) <u>Statutory Authority</u>: Section 12-13 of the Illinois Public Aid Code (Ill. Rev. Stat. 1991, ch. 23, par. 12-13) [305 ILCS 5/12-13], and Public Law 103-112.
- 5) Effective Date of Amendments: July 1, 1994
- 6) If these Emergency Amendments are to expire before the end of the 150-day period, please specify the date on which it is to expire: Not Applicable
-) Date Filed in Agency's Principal Office: July 1, 1994
- 8) Reason for Emergency: These emergency amendments are necessary to implement requirements imposed by recent revisions to the Hyde Amendment contained in Public Law 103-112, the appropriations bill for the Department of Health and Human Services. According to the interpretation of these changes by the Health Care Financing Administration (HCFA), Medicaid coverage shall be provided for the termination of pregnancies resulting from rape or incest. Currently, only abortions necessary to preserve the life of the mother can qualify for Medicaid coverage. Therefore, emergency rulemaking is necessary to maintain compliance with federal interpretation of the Hyde Amendment.
- Occupiete Description of the Subjects and Issues Involved: These emergency amendments to the Department of Public Aid's rules concerning medical payment and limitation on physician services, are intended to implement federal requirements imposed by recent revisions to the Hyde Amendment. According to the interpretation of these changes by the Health Care Financing Administration (HCFA), Medicaid coverage shall be provided for the termination of pregnancies resulting from rape or incest, as reported by the recipient. Currently, Section 140.413 specifies that only abortions necessary to preserve the life of the mother can qualify for Medicaid coverage. Therefore, this rulemaking is necessary to maintain compliance with federal interpretation of the Hyde Amendment.

Other changes are being made to Section 140.413 to remove outdated and duplicative language.

It is anticipated that implementation of these amendments will not result in any substantive increase in Department spending for abortion services. However, the actual economic impact of these amendments is unknown.

SUBPART D: PAYMENT FOR NON-INSTITUTIONAL SERVICES

Limitation on Physician Services Section 140.413

When provided in accordance with the specified limitations and EMERGENCY a)

requirements, the Department shall pay for the following services:

- for preservation of the life of the woman, or that the recipient reimbursement for abortions ex-indused-missarriages-ex-premature procedure is necessary to preserve the life of the mother or is induged-promature-birth-was-to-produce-a-live-viable-child-and certification which specifies that the procedure is necessary physician has certified in writing to the Department that the Termination of pregnancy -- only in those cases in which the reported that the pregnancy was the result of rape or incest «ас-веевсаку» fer-the-health-ef-mether-er-her-unbern-ehild. recipient, resulted from rape or incest. All claims for performed to end a pregnancy which, as reported by the births must be accompanied by the physician's written
- Sterilization 5)

NOTICE OF EMERGENCY AMENDMENTS

Section 140.413(a)(2) (continued)

- A) Therapeutic sterilization -- only when the procedure is either a necessary part of the treatment of an existing illness, or is medically indicated as an accompaniment of an operation on the female genitourinary tract. Mental incapacity does not constitute an illness or injury in respect to this procedure.
- Nontherapeutic sterilization only for recipients age 21 or older. The physician must obtain the recipient's informed written consent in a language understandable to the recipient before performing the sterilization and must advise the recipient of the right to withdraw consent at any time prior to the operation. The operation shall be performed no sooner than 30 days and no later than 180 days following the date of the recipient's written informed consent except in cases of premature delivery or emergency abdominal surgery. An individual may consent to be sterilized at the time of premature delivery or emergency abdominal surgery if at least 72 hours have passed since informed consent was given.
- 3) End stage renal disease treatment (chronic hemodialysis and kidney transplantation) is limited to those recipients who have been determined medically eligible for such treatment by the Illinois Department of Public Health.
- 4) By-pass surgery for morbid obesity -- only with the prior approval of the Department. The Department shall approve payment for this service only in those cases in which it determines that obesity is exogenous in nature, the recipient has had the benefit of other therapy with no success, and endocrine disorders have been ruled out. (See Sections 140.40 through 140.42 for prior approval requirements.)

5) Psychiatric Services

- A) Treatment -- when the services are provided by a physician who has been enrolled as an approved provider with the Department. Psychiatric treatment services are not covered services for Recipients of General Assistance or Aid to the Medically Indigent.
- B) Consultation -- only when necessary to determine the need for psychiatric care. Services provided subsequent to the initial consultation must comply with the requirements for treatment.

DEPARTMENT OF PUBLIC AID

NOTICE OF EMERGENCY AMENDMENTS

Section 140.413(a) (continued)

- 6) Services provided to a recipient in his place of residence -only when the recipient is physically unable to go to the physician's office.
- 7) Services provided to recipients in group care facilities by a physician other than the attending physician -- only emergency services provided when the attending physician of record is not available or when the attending physician has made referral with the recipient's knowledge and permission.
- 8) Services provided to recipients in a group care facility by a physician who derives a direct or indirect profit from total or partial ownership (or from other types of financial investment for profit in the facility -- only when occasioned by an emergency due to acute illness, unavailability of essential treatment facilities in the vicinity for short-term care pending transfer, or when there is no comparable facility in the area.
- 9) Maternity care -- Payment shall be made for pre-natal and post-natal care only when the following conditions are met:
- A) the physician, whether based in a hospital, clinic, or individual practice, retains hospital delivery privileges or maintains a written referral arrangement with another physician who retains such privileges or has entered into an appropriate Healthy Moms/Healthy Kids Program provider agreement or receives payment authorization for referral from the Department's independent contractor, as described in Sections 140.928(a)(7) and 140.932(a);
- B) the written referral agreement is kept on file and is available for inspection at the physician's place of business, and details procedures for timely transfer of medical records; and
- the quality of care quidelines published by the American College of Obstetricians and Gynecologists in the current edition of the "Standards for Obstetric-Gynecologis Services" (1989 Edition), 409 12th Street, S.W., Washington, D.C. 20024-2188.

10) Physician services to children under age twenty-one

A) Payment shall be made only when the physician meets one or more of the following conditions. The physician:

NOTICE OF EMERGENCY AMENDMENTS

Section 140.413(a)(10)(A) (continued)

- i) has admitting privileges at a hospital; or
- ii) is certified or is eligible for certification in pediatrics or family practice by the medical specialty board recognized by the American Board of Medical Specialties; or
- iii) is employed by or affiliated with a Federally Qualified Health Center; or
- iv) is a member of the National Health Service Corps; or
- v) has been certified by the Secretary of the Department of Health and Human Services as qualified to provide physicians' services to a child under 21 years of age;
- vi) has current, formal consultation and referral arrangements with a pediatrician or family practitioner for the purposes of specialized treatment and admission to a hospital. The written referral agreement is kept on file and is available for inspection at the physician's place of business, and details procedures for timely transfer of medical records, or
- vii has entered into a Healthy Moms/Healthy Kids Program
 provider agreement or receives payment authorization
 for referral from the Department's independent
 contractor described in Sections 140.928(a)(7) and
 140.932(a).
- B) The physician should notify the Department of the way in which he/she meets the above criteria; and
- Services to children are delivered in a manner consistent with the standards of the American Academy of Pediatrics and rules as published by the Illinois Department of Public Health (77 Ill. Adm. Code 630, Maternal and Child Health Services; 77 Ill. Adm. Code 665, Child Health Examinations; 77 Ill. Adm. Code 675, Rearing Screening; 77 Ill. Adm. Code 685, Vision Screening).
- 11) Hysterectomy -- only if the individual has been informed, orally and in writing, that the hysterectomy will render her permanently incapable of reproducing and the individual has

Amendment Amendment 140.865 140.870 Date Notice of Proposed Amendments Published in the Illinois Register: 4)

March 25, 1994 (18 Ill. Reg. 4597)

Corrections Being Made: 2

The Department proposed amendments to Sections 140.865 and 140.870 on March 25, 1994, at 18 111. Reg. 4597. These amendments addressed the Amendments also included amendments to Sections 140.440, 140.442, and The Notice of Proposed 140.443, which concerned the Department's drug coverage policies. Department's Medicaid Partnership Program.

of Proposed Amendments was published. While indicating the Department's On June 10, 1994, at 18 Ill. Reg. 8730, an improper Notice of Withdrawal 140.870, the Notice of Withdrawal of Proposed Amendments did not include the other amendments to other Sections which were included in the Notice intent to withdraw the proposed amendments to Sections 140.865 and of Proposed Amendments.

is This Notice of Corrections On that basis, the Notice of Withdrawal of Proposed Amendments was intended to correct the inadvertant publication of that Notice of improper and was published incorrectly. Withdrawal of Proposed Amendments. The Department does not intend to adopt the changes proposed in Sections 140.865 and 140.870. Those changes will be deleted from the second notice However, the Department does intend to proceed with the changes proposed that will be submitted to the Joint Committee on Administrative Rules. in Sections 140.440, 140.442, and 140.443.

SUBPART C: PERSONAL RADIATION SAFETY REQUIREMENTS FOR RADIOGRAPHERS AND RADIOGRAPHERS' ASSISTANTS

Section 350.2030 Personnel Monitoring Control

- The licensee or registrant shall not permit any individual to act as a radiographer or as a radiographer's assistant unless, at all times during radiographic operations, each such individual wears a direct reading pocket ionization chamber (i.e., pocket dosimeter) and either a film badge or a thermoluminescent dosimeter (TLD). Each film badge or TLD shall be assigned to and worn by only one individual. a)
 - Pocket ionization chambers (1.e., pocket dosimeters) shall meet the criteria in ANSI N13.5-1972, "Performance Specifications for Direct Reading and Indirect Reading Pocket Dosimeters for X- and Gamma q

1994 FIRST QUARTER SUNSHINE INDEX

94-0050 \$1.75	02/15/1994 (This is a GIL.) This letter describes the Illinois sales tax consequences of leasing as opposed to conditional sales.
94-0064	03/17/1994 (This is a GIL.) In Illinois, lessors are considered to be the end users of the items which they purchase for leasing purposes and consequently owe Use Tax "up front" on those items. See the enclosed copy of Section 130.2010. The Use Tax is due by the end of the month next following the month in which the equipment was brought into Illinois.
\$1.00	03/17/1994 (This is a GIL.) Conditional sales agreements often provide that the purchaser will make all required payments and at the end of the term, may purchase the equipment for a nominal amount. The term, "nominal amount," as used in this situation, indicates any price less than fair market value. That is, if the equipment, at the end of the lease term, can be purchased by the lessee for an amount that is less than the fair market value of the equipment at that time, the contract is deemed to be a

LOCAL TAXES

94-0017	01/10/1994 An Illinois retailer is required by statute to collect
\$1.25	the corresponding 6.25% Use Tax liability from its customer, and
	is authorized by statute to reimburse itself for locally imposed
	taxes. (See, for example, 65 ILCS 5/8-11-1, (1992 State Bar
	Edition), which allows a retailer to reimburse himself for Home
	Rule Municipal Retailers' Occupation Tax incurred under the Act.)
	The result is that a customer incurs tax in an amount equivalent
	to the tax incurred by the retailer. This amount should be paid
	directly to the retailer. (This is a GIL.)

03/28/1994 (This is a GIL.) The provisions of the Municipal Code authorizing the Soft Drink Tax impose the tax upon the retailer, and authorize, but do not require, that the retailer collect reimbursement from the customer for his tax liability. 94-0072

LAKE MICHIGAN YACHTING ASSOCIATION DAY 94-326

Whereas, the Lake Michigan Yachting Association is celebrating its 100th anniversary this year with a recognition ceremony on July

Whereas, the association, which was founded in 1894 in Racine, Wisconsin, is the midwest's most prestigious association of those

who love the water and boating in any of its many forms; and Whereas, the Lake Michigan Yachting Association is an association of 89 midwest yacht clubs, plus individual sustaining members; and

general and give the midwest yachtsmen an organized voice at the local, national, and world-wide level; and Whereas, club members further the interests of yachting in

Whereas, the Lake Michigan Yachting Association works to protect boating and the interests of recreational boaters and encourages educational and conservation programs; and

Whereas, it provides a medium for the exchange of boating information and acts as a liaison among boaters and yacht clubs;

Whereas, during the past year, the association organized two clean up drives, in Montrose Harbor and in Monroe Street Harbor;

Whereas, the Lake Michigan Yachting Association has helped preserve the unique character of Lake Michigan, one of Illinois' greatest assets;

Therefore, I, Jim Edgar, Governor of the State of Illinois, proclaim July 9, 1994, as LAKE MICHIGAN YACHTING ASSOCIATION DAY in Illinois.

Issued by the Governor June 17, 1994. Filed with the Secretary of State June 24, 1994.

SPEECH WEEK 94-327

to share with one another through speech, sign communication skills link every member of society, Whereas, enabling us

language, braille, and many other avenues; and Whereas, teachers, speech educators, and communication specialists deserve recognition for their efforts to help individuals develop good communication skills which are vital in a rhetorical society; and

Whereas, the exchange of information and ideas encourages individual intellectual and social growth and furthers society as a whole;

Therefore, I, Jim Edgar, Governor of the State of Illinois, proclaim October 10-15, 1994, as SPEECH WEEK in Illinois. Issued by the Governor June 17, 1994. Filed with the Secretary of State June 24, 1994.

THERAPEUTIC RECREATION WEEK 94-328

Whereas, the value of recreation and leisure is sometimes overlooked; and Whereas, recreational participation enhances health, growth, opment, and independence through intrinsically rewarding leisure behavior; and

Illinois provide services in clinical, community, and recreational facilities for individuals with conditions that limit their participation in everyday functions and leisure activities; and therapeutic recreation specialists throughout Whereas,

Whereas, these specialists strive to improve the leisure functioning of people in rehabilitation settings and to provide leisure opportunities for all disabled individuals

Therefore, I, Jim Edgar, Governor of the State of Illinois, proclaim July 10-16, 1994, as THERAPEUTIC RECREATION WEEK in

Filed with the Secretary of State June 24, 1994. Issued by the Governor June 17, 1994.

ALEKSA DUJOVIC DAY

Whereas, Aleksa Dujovic served his native Montenegro,

Yugoslavia with courage and honor; and Whereas, his noble efforts to accomplish peace live on today and have inspired many to protect the liberties of all people; and Whereas, Aleksa Dujovic fought valiantly with the Allies against fascism and communist oppression during World War II; and Whereas, through his words and deeds, he encouraged more than 45,000 Chetniks to join him in fighting against the tyranny of totalitarianism; and

Whereas, June 29, 1994, marks the 50th anniversary of the death of this great man;

Therefore, I, Jim Edgar, Governor of the State of Illinois, proclaim June 29, 1994, as ALEKSA DUJOVIC DAY in Illinois.

Issued by the Governor June 21, 1994. Filed with the Secretary of State June 24, 1994.

DR. RON GIERHAN DAY 94-330

Illinois University during the past 17 years as Vice President of Student Affairs and now as Vice President of Student Services; and Whereas, the main purpose of a university is to provide educational opportunities to its students, whether in the classroom Whereas, Dr. Ron Gierhan has served the students of Western

Whereas, Ron Gierhan has been an advocate of student interest in the university policy-making structure; and or through extra-curricular activities; and

Whereas, during the past 17 years, the students of Western Illinois University have been Dr. Gierhan's first and foremost

concern; and

Whereas, under Ron Gierhan's leadership, the Student Affairs Program at Western Illinois University has developed into one of the finest in the country; and

Whereas, Ron and his wife, Sharon, have been valuable and respected members of the Macomb community and will be missed by their friends in the City of Macomb and the university community;

years of service to Western Illinois University to spend more tim e with his daughters and grandchildren in the Pacific Northwest and Whereas, Ron Gierhan has announced his retirement after 17 to pursue new professional challenges;

Therefore, I, Jim Edgar, Governor of the State of Illinois, proclaim July 8, 1994, as DR. RON GIERHAN DAY in Illinois.

Issued by the Governor June 21, 1994. Filed with the Secretary of State June 24, 1994

REAL MEN COOK FOR CHICAGO CHARITIES DAY 94-331

Whereas, this is the fifth annual "Real Men Cook" for Chicago

Charities on Father's Day co-sponsored by Resource Associates International, Inc. and the South Side YMCA; and Whereas, "Real Men Cook" is not a profit-making venture; rather, it is an effort to establish a Father's Day tradition which heralds the male role models in our communities; and

Whereas, "Real Men Cook" is a celebration of men and a reflection of the culinary traditions handed down from generation to generation in many families; and Whereas, "Real Men Cook" makes a monetary contribution to

places in which to live; and whereas, 100 business and professional men have prepared those organizations whose mission is to make our communities better

special dishes specifically for this event; and

Whereas, the corporate community, including Nabisco, Lawry's, Coca-Cola, American Airlines, the Chicago Tribune, Uncle Ben's, Inc.' and Dominick's Finer Foods are major sponsors of the event;

Whereas, real men cook, real men love, real men care, and real men become fathers of real men;

Therefore, I, Jim Edgar, Governor of the State of Illinois, proclaim Father's Day, June 19, 1994, as "REAL MEN COOK" FOR CHICAGO CHARITIES DAY in Illinois.

Filed with the Secretary of State June 24, 1994. Issued by the Governor June 21, 1994.

ROBERT B. HUFF SCHOLARSHIP FOUNDATION DAY 94-332

its 6th annual Celebrity Waits Dinner on July 15, 1994; and Whereas, Chicago's media and sports personalities will join forces to support their commitment to higher education; and Whereas, the Robert B. Huff Scholarship Foundation is Whereas, the Robert B. Huff Scholarship Foundation will hold

dedicated to continuing Mr. Huff's spirit of generosity by aiding young people of all backgrounds in their quest for higher education; and

Whereas, the Foundation commits itself to offer time, energy, and wisdom to Huff Scholars in order that they might achieve the success they pursue;

Therefore, I, Jim Edgar, Governor of the State of Illinois, proclaim July 13, 1994, as THE ROBERT B. HUFF SCHOLARSHIP FOUNDATION DAY in Illinois.

Issued by the Governor June 21, 1994. Filed with the Secretary of State June 24, 1994.

GRANDPARENTS DAY 94-333

tradition by all people and societies throughout the world from the hallowed for elders is an honored and beginning of mankind to our present generation; and respect

Whereas, grandparents are to be honored and revered for the history that they have made -- the history that they are, the history that they have passed on -- for indeed, grandparents are the living history of all mankind; and

Whereas, grandparents promote an awareness of culture, heritage, and history so that it may be passed on to each succeeding generation, thus keeping alive universal values and

Whereas, the dignity and wisdom of our grandparents have set traditions; and

examples by experience and have provided in paracipational goals; Therefore, I, Jim Edgar, Governor of the State of Illinois, proclaim June 26, 1994, as GRANDPARENTS DAY in Illinois and encourage all our citizens to honor their grandparents and other older persons who have become a significant and meaningful part of their lives.

Issued by the Governor June 24, 1994. Filed with the Secretary of State June 24, 1994.

JEWISH NATIONAL FUND DAY 94-334

dedicated to making the desert bloom and bringing ecological balance to the land of Israel and to other countries where Israel assists with agricultural and environmental sciences; and Whereas, the Jewish National Fund is a charitable organization

Whereas, the dream of freedom for many immigrants from the Soviet Union, Ethiopia, and other lands in being realized; and Whereas, a forest will be established in the name of His Eminence Joseph Cardinal Bernardin; and Whereas, these trees will grow in a special area of the Holy Land which is of historical and religious significance to

Christians and Jews; and

Whereas, these trees will help moderate the climate, clean and enrich the air we breathe, beautify the land, and make it habitable; and

Whereas, a Tree of Life Award tribute dinner honoring Cardinal

Bernardin is being held to inaugurate this project; Therefore, I, Jim Edgar, Governor of the State of Illinois, proclaim June 28, 1994, as JEWISH NATIONAL FUND DAY in Illinois in honor of this event.

Issued by the Governor June 22, 1994. Filed with the Secretary of State June 24, 1994.

94-335

CHURCH OF GOD IN CHRIST, NORTHERN ILLINOIS JURISDICTION WEEK

Whereas, the Church Of God In Christ, Northern Illinois Jurisdiction, is a not-for-profit religious, organization consisting of several congregations in the State of Illinois; and Whereas, it is responsible for causing many men, women, boys, and girls to seek, receive, and exemplify a higher level of moral and spiritual conduct through the teachings of the Holy Bible; and Whereas, the Church Of God In Christ, Northern Illinois Jurisdiction, has the distinction of being the oldest jurisdiction in Illinois and is celebrating its 75th Diamond Jubilee Holy Convocation August 8-13, 1994;

Therefore, I, Jim Edgar, Governor of the State of Illinois, proclaim August 8-13, 1994, as CHURCH OF GOD IN CHRIST, NORTHERN ILLINOIS JURISDICTION WEEK in Illinois and urge all citizens to be

cognizant of the events arranged for this time.

Issued by the Governor June 22, 1994.

Filed with the Secretary of State June 24, 1994.

94-336

SERBIAN NATIONAL DEFENSE COUNCIL OF AMERICA DAYS

Whereas, during the late 1800's, immigrants from the Serbian lands in the Balkans began to arrive in the United States, settling in large numbers in Illinois and the Chicago area. They brought with them their religious and cultural traditions, their Orthodox Christian faith, and their devotion to freedom and liberty; and Whereas, one of the most important days in the Serbian Orthodox tradition is the Feast of St. Vitus-Vidovdan, which is

celebrated on June 28. On this day in 1839 the Serbian army, led by Saint-Prince Lazarus, chose to fight an overwhelming stronger Ottoman Turkish army, accepting martyrdom over capitulation and slavery; and

Whereas, founded in 1914 and headquartered in Chicago, the Serbian National Defense Council of America has commemorated St. Vitus Day (Vidovdan) by holding its annual Congress and sponsoring a Memorial Service and Academy, which is dedicated to all who have fought for the Honorable Cross and Golden Freedom; and

Whereas, celebrating its 80th anniversary this year, the Serbian National Defense Council of America will hold its annual Congress and Vidovdan Memorial Service and Academy on June 25-26 at the Serbian Orthodox Monastary in Third Lake, Illinois; Therefore, I, Jim Edgar, Governor of the State of Illinois, proclaim June 25-26, 1994, as SERBIAN NATIONAL DEFENSE COUNCIL OF AMERICA DAYS in Illinois.

Filed with the Secretary of State June 24, 1994 Issued by the Governor June 22, 1994.

BILL AND CATHY BRADY DAY

Corrigan met during World War II when Bill, a radio operator in the Army Air Corps, went to get supplies from the Quartermaster, where Whereas, Lewis C. "Bill" Brady and Mary Catherine "Cathy" Cathy worked; and

Whereas, Bill and Cathy were married on June 30, 1994,

children Linda, Doug, Tim, Julia, and Kristen, who brought into the family daughter-in-law Barb and sons-in-law Denny, Blake, and A.J., as well as six wonderful grandchildren--Brandon, Shi Lynn, Ashley, Sioux City, Iowa, while Bill was still in military service; and Whereas, they made their home in Springfield, Illinois, with Justin, Jakob, and Jon; and

years and retired in 1988, and Cathy retired from the Catholic Mission Offices in 1992 after 15 years of service; and Whereas, Bill is an avid golfer and active in the Disabled Whereas, Bill was employed by the U.S. Postal Service for 27

American Veterans and Elks Clubs, Cathy belongs to a weekly card club and socializes frequently with friends, and both are sports enthusiasts and excellent cooks of exotic dishes; and

Whereas, the Bradys are doting parents and grandparents who enjoy visiting their children and families -- spread from Illinois to Texas, Wisconsin, and Colorado. They spend their winter months in Florida; and

Whereas, Bill and Cathy Brady mark their 50th wedding

anniversary June 30, celebrating the event June 25 with family and friends at the Disabled American Veterans Club on Lake Springfield; Therefore, I, Jim Edgar, Governor of the State of Illinois, proclaim June 30, 1994, as BILL AND CATHY BRADY DAY in Illinois in

Issued by the Governor June 23, 1994. honor of their golden anniversary.

Filed with the Secretary of State June 24, 1994.

ROBERT A. WALLHAUS DAY 94-338

Whereas, Robert A. Wallhaus has served faithfully as a member of the staff of the Illinois Board of Higher Education for the past 17 years and as its Executive Director since 1990; and

Whereas, Bob Wallhaus served as a Member of Governor Edgar's Task Force on Telecommunications and Networking in 1991-1992; and Bob Wallhaus spearheaded the development of Whereas,

initiative and served as a member of the staff for distance education telecommunications-based telecommunications summit; and higher

education policy benefitting the students and faculty of colleges Whereas, Bob Wallhaus has been an active leader in the field and universities across the State of Illinois; and

of higher education nationally; and

Whereas, Bob Wallhaus has contributed significantly to higher

Bob Wallhaus has provided leadership in development of state-of-the-art libraries in this state; and Whereas,

professional has made significant Whereas, Bob Wallhaus has made significant contributions to the field of higher education; and

Whereas, Bob Wallhaus has served as an inspiration to and role model for his staff colleagues over these 17 years;

Therefore, I, Jim Edgar, Governor of the State of Illinois, proclaim June 24, 1994, as ROBERT A. WALLHAUS DAY in Illinois and express my profound appreciation on behalf of the people of Illinois.

Filed with the Secretary of State June 24, 1994. Issued by the Governor June 23, 1994.
